

# REPUBLICANS IN SWEEPING VICTORY THROUGHOUT NATION

G. O. P. CANDIDATES SWEEP INTO OFFICE BY BIGGEST MAJORITY IN HISTORY OF U. S.

## SHORTRIDGE LEADS FOR SENATE

Phelan Gains on G. O. P. Candidate When S. F. Ballots Counted

SAN FRANCISCO, Nov. 3.—Samuel Shortridge, Republican, was leading Phelan, Democrat, by nearly 20,000 votes at noon today. The figures at that hour seemed to settle definitely the victory of Shortridge. While Phelan continued to gain in San Francisco, Shortridge gained to a greater extent in the voting returns rolling in from Southern California and outlying precincts of Northern California. Senator Phelan has not yet conceded Shortridge's victory, however. Phelan campaign managers were not ready to issue a statement but indicated they were withholding their statement as a courtesy to the senator.

SAN FRANCISCO, Nov. 3.—Although Samuel Shortridge, Republican, was leading, the final result of the race for the United States senator from California seemed still to be subject to change on the face of returns available at noon today. At that hour the vote counted stood Shortridge 77,693; Phelan 71,330.

Phelan last night apparently was defeated. The gain he made overnight was due to the strength which he showed in San Francisco, where he was running far ahead of his ticket and had a comfortable margin over Shortridge.

Shortridge was carrying Southern California by good sized margins and depended on that section and the outlying districts of northern California to hold his lead against Phelan's assaults in San Francisco's returns.

Phelan this morning had not conceded his defeat. It was estimated Harding may roll up a plurality of 300,000 over Cox in California as compared to the 3,000 plurality which swept Wilson into the presidency four years ago.

Early returns today from 2,371 precincts out of a total of 6,177 in the state, many of which were incomplete, gave Harding 185,612 and Cox 66,616.

Vote on the state amendments, aside from the anti-alien land law which carried overwhelmingly, left many uncertainties in San Francisco the vote against it was between three and four to one.

Opponents of Amendment 12, the University of California "mill tax" claimed it was beaten. In San Francisco the vote on this measure was about even. Proponents of the measure, however, were unwilling to admit defeat and rather expected that when the confusion in the count is cleared, it will be shown to have carried.

The vote on the Harris law continued close with the result still uncertain.

## MYSTERY MAN GIVEN LONG JAIL SENTENCE

LONDON, Nov. 3.—Six months at hard labor, and deportation thereafter, was the sentence imposed today upon Erki Weltheim, the "mystery man" arraigned a week ago, charged with acting as an intermediary between British and Russian members of revolutionary circles.

Upon Weltheim the government's attorney announced, a letter from Sylvia Pankhurst to Nikolai Lenin, premier of soviet Russia, had been found, in which Miss Pankhurst was alleged to have written:

"The situation is most acute; not ready for a revolution yet."

## Republicans Will Control House by 100 Votes, Claim

NEW YORK, Nov. 3.—Republicans will control the house of representatives, which goes into office March 4, 1921, by a majority of more than 100 votes, according to partially complete returns from all over the United States.

Of the 435 members of the house, the Republicans will have 273, according to these figures. There will be 159 Democrats, two Independents and one Prohibitionist, a total of 162 votes, giving the Republicans a majority of 111. In the present house the Republicans have a majority of 39, with 233 members to the 194 of the Democrats, Independents and Prohibitionists. There are eight vacancies.

## COUNT SHOWS HARRIS LAW DEFEAT

SAN FRANCISCO, Nov. 3.—California voters did not look too kindly on the amendments and initiative and referendum measures which were on yesterday's ballot.

Incomplete figures show that 11 of the 20 propositions were apparently defeated.

The anti-alien land law headed the list of those passed. The vote on it was somewhere between three to four to one in its favor.

Indications that the Harris liquor enforcement act, which would extend to state authorities powers of enforcement of prohibition now held by federal authorities apparently was defeated.

The result on Amendment 12, the University of California measure was still uncertain at 12:30.

Numbers 5, 6 and 7, the chiropractic act, anti-vaccination and anti-visitation were apparently defeated.

The voters decided against No. 10, calling a constitutional convention. The community property law, which was the center of a spirited campaign seemed overwhelmingly defeated. The single tax was turned down again.

Absentee voting, the orphanage act, the irrigation and state aid for institutions also seemed to have been defeated. The state highway bond measure passed by a wide margin. The poison and insurance act apparently have passed. The fate of the alien poll tax measure, No. 11 on the ballot, was uncertain.

## ASK POSTPONEMENT OF ARNSTEIN TRIAL

NEW YORK, Nov. 3.—District Attorney Swann was requested by U. S. Attorney John L. Laskey of Washington, to defer the trial here of Julius W. (Nicky) Arnstein, so that he may be placed on trial in Washington with others charged with having transported stolen bonds into the District of Columbia. Arnstein and the other Washington defendants are under federal indictment, and it is proposed to try them jointly this month.

Arnstein, who was frequently mentioned in connection with New York's \$5,000,000 bond theft plot, is under charges of contempt resulting from his refusal to answer questions in connection with his bankruptcy examination.

## REPORTS SUICIDE WAVE IN GERMANY

PHILADELPHIA, Nov. 3.—An epidemic of suicide is sweeping Germany according to D. Robert Yarnall, who has just returned to Philadelphia after having directed the work of the Friends relief commission in Germany for six months.

The astounding increase in the number of suicides said Mr. Yarnall, is the direct result of the feeling of utter hopelessness and lassitude which has taken possession of a large portion of the German people. They believe that Germany's tremendous war debts can never be paid and that the Fatherland never again will be able to take its place among the great powers.

## HARDING, COOLIDGE AND G. O. P. CONGRESS CANDIDATES WINNERS

NEW YORK, Nov. 3.—The Harding landslide increased in size late this afternoon when more complete returns indicated the Republican candidate had carried Tennessee, Montana and Arizona.

The returns threw 19 additional electoral votes to Harding, who will have at least 391 in the electoral college.

In addition, late returns from Oklahoma indicated the result there is still in doubt, though Cox was holding a slight lead.

In capturing Tennessee the President-elect succeeded in breaking the Democratic front there for the first time since 1868. Democratic headquarters did not concede Tennessee to the Republicans.

The outcome of the senatorial race in three states remained in doubt. They were Oregon, Arizona and Montana.

It was estimated that the total vote cast was more than 20,000,000, and that Harding polled nearly 6,000,000 votes more than Cox. This broke all records for political land-slides.

The records show that prior to yesterday no state ever had given a presidential candidate more than a 500,000 plurality. This was surpassed by New York, which gave Harding a probable lead of more than 1,000,000, by Pennsylvania, where the Republican candidate has a margin of more than 700,000, and in Illinois, where Harding's plurality is about 800,000.

Harding's margin of victory in Ohio was estimated at 400,000. Other states rolled up unprecedented pluralities for Harding. California, whose vote four years ago decided the Hughes-Wilson contest in favor of the latter, appears to have gone for Harding by more than 100,000.

As tabulation of returns was completed today, the Harding landslide was seen to be greater than it had appeared even last night when the great Republican sweep from coast to coast became manifest. The most optimistic predictions of Republican National Chairman Will H. Hays, were exceeded in practically every instance.

The women's vote swelled the total to unprecedented proportions and made the Democratic defeat appear all the more overwhelming.

Harding, when he assumes the presidency March 4, 1921, will go into office with a senate and house of representatives Republican by wide margins, according to the returns to date.

Republicans gain seats in both the upper and lower houses.

## REPUBLICAN CANDIDATES WIN IN ARIZONA

PHOENIX, Ariz., Nov. 3.—The entire Republican state and national ticket with the exception of one seat in congress was victorious on the face of nearly complete returns in Arizona at 7:30 this morning.

Harding had a "safe" majority over Cox, with Ralph Cameron leading Senator Marcus A. Smith, Democrat, for U. S. Senate.

Carl Hayden, Democrat, was re-elected to Congress.

## ENTIRE G. O. P. TICKET WINS IN IOWA

DES MOINES, Iowa, Nov. 3.—From president on down to minor state offices, Iowa has gone Republican by overwhelming majorities, returns tabulated from more than one-fourth of the state's 2,343 precincts today showed.

In 156 precincts out of the state's total, Harding received 160,000 and Cox 54,152.

For United States senator, 459 precincts gave Cummins, Republican, 95,748; Porter, Democrat, 48,169.

For governor, 401 precincts gave Kendall, Republican, 83,510; Herring, Democrat, 48,169.

On the basis of these returns, (Continued on Page Two)

## LETTERS ARE WRITTEN FOR DENTON BY ANAHEIM WOMAN

That Jacob C. Denton, wealthy mining man, found murdered in Los Angeles, visited an Anaheim woman during the late afternoon of June 1 or 2 and that at his request she wrote two letters for him, was the statement made today by Sheriff C. E. Jackson.

The Anaheim woman's husband is in the mining business in Arizona. Denton, according to Sheriff Jackson, sought a public stenographer. Unable to find one, the woman, an old friend, wrote two letters at Denton's dictation.

One of the letters, Jackson stated, was said to have been addressed to a woman, and to have asked her to meet Denton in the East. The letter was understood to have stated that "it would be agreeable with him (Denton) if she cared to bring the little girl along."

In this connection it will be recalled that Mrs. Louise C. Peete, now under indictment in Los Angeles, in connection with the murder, has a 4-year-old daughter.

It is also recalled that there have been statements by several persons questioned in the case that Denton had injured his arm and carried it in a sling, which may have accounted for the fact that he sought to have someone write the letters for him. Denton was also a poor letter writer, it was stated.

The information regarding Denton's visit to Anaheim is considered highly important, inasmuch as Denton was last seen on June 1 or 2, it has not been definitely determined which. The letters may throw some light on several occurrences just prior to Denton's disappearance.

Operatives from the office of the district attorney of Los Angeles were scheduled to arrive here this afternoon and to accompany Sheriff Jackson to Anaheim, where it was planned to make a further investigation.

## WIFE OF INSTRUCTOR AT FULLERTON DIES

FULLERTON, Nov. 3.—Mrs. Philip Hoffman, wife of the head of the English department of the Fullerton High School, died suddenly about 11 o'clock yesterday morning of what physicians say was a stroke of apoplexy.

Mrs. Hoffman, apparently in the best of health, had been hanging out clothing on the line and upon entering the house fell to the floor. Neighbors summoned physicians, but she expired shortly after they arrived. A 4-year-old son survives. The family came here from Slason, Cal., at the opening of the school year. Mrs. Hoffman was 40 years of age.

## TRAIN IN L. A. KILLS MOTHER AND HER SON

LOS ANGELES, Nov. 3.—Mrs. S. F. Flores and her son, Louis, 6, were killed today when they were thrown beneath a Santa Fe freight train at a crossing here. They were riding in a wagon with the woman's husband when Flores' horse swerved, throwing her and the child beneath the train.

## "39" BULLETINS

DAYTON, O., Nov. 3.—Governor Cox lost his home county in the Republican landslide by a plurality of about 900.

RENO, Nev., Nov. 3.—With more than half of the states vote tabulated, Senator Harding was leading Cox by 4000.

## FIGHT OVER ANCIENT WALL ENDS IN COURT

MANILA, Nov. 3.—A long-standing controversy between the city of Manila and the insular government, as to the ownership of the walls which surround the ancient city and the sunken gardens around the walls, has just been decided in favor of the insular government. The Attorney-General of the Philippine Islands, to whom the question was submitted, held that the insular government was the rightful owner of the properties.

It has been arranged, however, to turn over to the city of Manila the sunken gardens to be used as a playground. Plans also have been made for the city to take over the care of the old walls, which are to be made show places by the planting of flowers and shrubbery on top of the structure, which is nearly 300 years old.

## COTTON GROWERS FORM NEW DISTRICTS

BAKERSFIELD, Nov. 3.—Nearly one-half of the 490 cotton growers of Kern county signed up to join the San Joaquin valley branch of the Arizona American Egyptian Cotton Growers' association. The acreage signed was 4142 out of a total of 10,763 acres planted in Kern county. Permanent directors were chosen as follows: Charles D. Fowler and A. E. Beckes, Wasco; Hugh S. Jewett and J. A. Pauley, Arvin; Harry West and Wesley Wilson, Jr., Shafter; W. M. Simons and John Alexander, Weed Patch; W. C. Hanawalt, McFarland; E. B. Armstrong, Tulare, and Harry Peacock, Bakersfield. The latter is a director at large.

In order to enlarge its scope, other counties in the valley having cotton growing districts will be invited to join. It was practically understood that some of the directors will resign as other counties join the association, that outside communities may be represented.

## 30,000 LEAD IS SEEN FOR SWING

Incomplete reports received today from counties of the eleventh congressional district indicate that Judge Phil D. Swing of El Centro, Republican, has defeated Hugh L. Dickson, Democrat of San Bernardino, by a majority of probably 30,000.

"The majority given me by Or. The majority given Swing is in the contest in the eleventh district. In 1914, William Kettner, Democrat, defeated H. C. Needham, Republican, by 22,164 votes.

When informed over the telephone this morning of the figures as they then stood in Orange county, Judge Swing said to the Register:

"I am very anxious that you convey to the people of Orange county my deep appreciation for the support given to me from the inception of my candidacy.

greatest ever given a congressman county yesterday, is highly gratifying to me. I had not counted on a majority of more than 5,000. I feel that I am under lasting obligations to Orange county for its treatment of me throughout the campaign and yesterday on election day."

Swing ran far ahead of his ticket in Imperial county. The vote was five to one for Swing. At noon today twenty-eight out of forty-eight precincts in Imperial county gave Swing 3,424 and his opponent, Dickson, 709.

Orange county gave Swing very close to a four to one vote. His majority in Orange county will probably reach 8,000, possibly more.

According to meager reports from San Diego county, Swing is running two votes to one for Dickson. According to reports received here, San Bernardino county has a majority of 4,000 for Swing. Dickson carried his home city by 200. Riverside county gave Swing a substantial majority. Riverside city with all precincts complete show Swing 4169 and Dickson 1182. Riverside city gave Harding 4357 and Cox 1140, with 3725 for Shortridge and 1235 for Phelan. There is no report available on the results in Riverside county outside of Riverside city.

## HAIRPLANE AT KEY WEST

HAVANA, Nov. 3.—Two airplanes, the nucleus of a future passenger-mail service between New York and Cuba, arrived from Key West, having left New York Saturday last.

## COUNTY VOTE HEAVY FOR G. O. P. MEN

Totals on sixty-five precincts complete out of 111 in Orange county show the following:

For President: Harding, 6681; Cox, 1828.

For U. S. Senator: Shortridge, 5403; Phelan, 2313.

For Congress: Swing, 6309; Dickson, 1637.

For Appeal Judges: Craig, 5286; Weiler, 2960; Works, 3677.

Amendments—No. 1—Yes 7028, No 1936. No. 2—Yes 5736, No. 2729. No. 3—Yes 5690, No 5713. No. 5—Yes 5598, No 2595. No. 6—Yes 4026, No 2989. No. 7—Yes 2108, No 4566. No. 12—Yes 2290, No 3859. No. 13—Yes 2972, No 4550.

Orange county voters yesterday rose in their might and did their full share in swatting the Wilsonian policy of administration, one of the hardest swats the Democratic party ever has had. The people rose almost en masse to place further restrictions against Japanese land holding and rebuked the tariff-revenue-only idea with such force as to leave no doubt as to their position on the tariff question.

With totals available only on 65 out of 111 precincts in Orange county, it is estimated that Harding swept over Cox by about 9000 majority, and that Shortridge rode over Phelan with about 6000 votes to spare.

Phil D. Swing of El Centro, left his Democratic opponent standing at the post, and when the final totals are shown it is believed that they will (Continued on page two)

# HARDING LANDSLIDE INCREASING IN U. S.

## DEMOCRATS BURIED UNDER HUGE VOTE AVALANCHE AS COUNTRY'S PEOPLE TAKE POLLS BY STORM

(Continued from page one)

Harding's majority in Iowa will be approximately 400,000; Cummins majority will be around 200,000 and Kendall's will be about 150,000, political authorities here predicted.

These same returns showed Iowa's Republican delegation of eleven members in the house of representatives was elected by a safe margin. Returns available indicated Cox carried but one Iowa county—Davis. With five precincts in this county reported, Cox had a lead of 100 votes over Harding.

### SENATOR CHAMBERLAIN IS DEFEATED IN OREGON

PORTLAND, Nov. 3.—Oregon not only gave Senator Harding a handsome majority over Governor Cox, but will support him with a Congressional delegation that is solidly Republican, early returns today indicate.

Due to the length of the ballot in this state, returns are still meager, but based on the early figures Harding's lead will likely approach 40,000.

Senator George E. Chamberlain, Democrat, has probably been defeated by Robert N. Stanfield, Republican, early returns today indicate.

Congressman W. C. Hawley, Republican, was re-elected in the first district with practically no opposition. N. J. Sinnott, Republican representative from the second district, was an easy winner over J. H. Graham, Democrat.

Congressman C. N. McArthur, Republican, has a fairly comfortable lead over Esther Pohl Lovejoy, Democrat.

### COLORADO GIVES HARDING TWO TO ONE VOTE

DENVER, Colo., Nov. 3.—Complete returns from 474 of Colorado's 1478 precincts give Harding 56,734; Cox 31,658.

For senator: Nicholson, Republican, 52,393; Scott, Democrat, 33,528; Thomas, Independent, 5,211.

For governor: Shoup, Republican, 59,780; Collins, Democrat, 3,122.

The election of the four Republican congressional candidates from this state seemed certain, as all had big leads over their Democratic opponents.

### TENNESSEE GIVES G. O. P. MORE CONGRESSMEN

NASHVILLE, Tenn., Nov. 3.—Returns from practically all over the state today indicated that Harding, for president, had carried Tennessee by approximately 18,000, while Alf Taylor, Republican candidate for governor, was elected over the present incumbent, A. H. Roberts, Democrat, by nearly 25,000 majority.

## ORANGE COUNTY IS STRONG FOR G. O. P.

(Continued from page one)

show better than 9000 majority for Swing.

It is estimated that between 75 and 80 per cent of the registered voters expressed their will at the polls, and they expressed it in no uncertain terms.

Seldom has a Presidential election so aroused the people as the one just passed. Four years ago the poll was as great in percentage of registered voters casting ballots, but there was not near the deep interest manifested as was displayed in yesterday's election.

The large number of votes cast and the number of candidates and amendments on the ballot made the count by election officers slow.

It was about 9:30 o'clock last night before the first complete precinct report came into the office of County Clerk J. M. Backs. El Toro was the first to report in and Ben Osterman was the man who brought the returns into the office of the clerk.

The vote on the amendments indicates that the voters studied the propositions closely and in very few instances were the totals far behind the poll of the precinct. With the semi-official returns coming in as slowly as they did, it was impossible today to arrange a complete tabulation and secure footings in time for publication.

Some election boards did not complete their count until after 3 and 9 o'clock this morning.

Amendment No. 20, single tax measure, was given a severe drubbing, the opposition to it being stronger than on any of the other measures.

Amendment No. 1, alien land law, carried by four to one.

No. 2, the enforcement act, will

### AMENDMENT NO. 16 CARRIES IN COUNTY

Eighty-six precincts out of 111 in this county on No. 16 (Education amendment) gave yes 5129; no 4267.

### TOBACCO COMPANY DECLARES DIVIDEND

NEW YORK, Nov. 3.—The American Cigar Company declared a 50 per cent common stock dividend payable December 15, to stockholders of record, December 1. A special meeting of stockholders will be held November 24, to vote on a plan to increase the authorized common share capital from \$10,000,000 to \$50,000,000.

The American Tobacco Company owns a majority of the \$10,000,000 stock now outstanding.

carry by about 5000, it is estimated.

No. 3, increasing the salaries of justices, was hit hard.

No. 5, providing for a board of chiropractic examiners, will carry by a two to one vote.

No. 6, prohibiting compulsory vaccination, apparently was supported by a two to one vote.

No. 7, prohibiting vivisection, lost by a two to one vote.

No. 12, the university tax proposition, was close, the indications being that a majority of probably 2000 was cast against it.

No. 13, the community property measure, lost by approximately 4000.

A tremendous vote was cast in No. 2 precinct, Santa Ana, that precinct had a registration of 264. There were 255 votes cast. Going through the register of voters, the election officers of that precinct estimated that twenty-four of those registered had either died or had moved out of the precinct. That is, all but fifteen of those eligible to vote did vote yesterday.

Some of the election officers say that they are convinced that quite a number of voters seemed to have the idea that a stamp in the square for the presidential electors meant a straight ticket for that party. That is, a stamp in the square for the Republican electors meant also a vote for Shortridge and Swing. This, of course, was a mistake, as the stamp in that square was for the electors only.

**STEAMER GOES ASHORE**

SEATTLE, Nov. 3.—The American steamer Eastern Belle, bound from Tacoma and Seattle to Cuban ports with a cargo of lumber, went ashore in a fog at Dungeness Bay, Wash., according to a report to the Seattle Merchant's Exchange.

## MRS. COOLIDGE MAKES HUBBY WASH DISHES

BOSTON, Nov. 3.—Calvin Coolidge, vice-president elect, former "law-and-order" governor of Massachusetts, is just what his name implies—a sturdy son of New England, unassuming, almost taciturn, endowed with a singleness of purpose and the same determination that gave his ancestors, John and Mary Coolidge, the courage to make themselves a home in the wilderness of forest that was Massachusetts in 1630.

Born on a farm, the son of a prosperous farmer near Plymouth, Vermont, Calvin Coolidge spent his early youth much as any other farmer's son, in doing the chores about the farm. His ambitions, however, did not lead him to follow in the footsteps of his father, and the latter with the wisdom of one who understands, encouraged and assisted young Coolidge in his plans to enter college.

Coolidge was born on Independence Day, 1872, a coincidence which his admirers say gave him the singleness of purpose and Yankee obstinacy characteristic of the man. History and affairs of government were subjects of intense interest to Coolidge even when a boy. He specialized in these subjects at Amherst College and graduated in the class of 1895. In his senior year he won first honors, a gold medal of honor by the Sons of the American Revolution, for the best essay by an undergraduate of an American college, on the principles of the War for American Independence.

After studying law for less than two years in a small office at Northampton, Mass., Coolidge was admitted to the bar. He took a prominent part in the city government, being elected to the city council, and later was elected to the Massachusetts House of Representatives. He was mayor of Northampton in 1910 and 1911, and later was elected to the state senate in which he served four years. His participation in the government of his state was the first step in Coolidge's political career.

After serving in the senate, he was elected lieutenant-governor and held office for three years until he was elected governor in 1919. He was re-elected in 1920.

His firm stand for law and order during the police strike in Boston brought Coolidge national recognition, and was the most significant incident in his career and the first step toward the place of honor to which he has been elected.

Coolidge does not answer the description of the popular conception of a politician. He is reserved even shy. He is not a good public speaker, his voice being colorless and seldom rises above a certain note. It is what Coolidge has to say and the very apparent air of personal conviction that holds his audiences and makes up for what he lacks in tricks of oratory.

At his home in a two-family house, the other side of which is occupied by a professor, Calvin Coolidge is frequently elected to wash dishes, dust the parlor and "tend" the furnace. He is also proud that he can cook "middling well."

It was while studying law in Northampton that Coolidge met his wife, then Miss Grace A. Goodhue of Burlington, Vermont. Miss Goodhue was teaching school in Northampton and lived directly across the street from the boarding house in which Coolidge maintained a small room filled with ponderous books of law and volumes of history. He was anything but a "ladies' man" and it was months after he first saw the girl that was to become his wife, that he was introduced to her. It was long months after the meeting that he finally gathered courage to "pop the question." They were married in 1905.

Coolidge looks forward to taking his place as vice-president as an active worker in helping to carry out the policies of the new administration.

**Gov. Cox Telegraphs Congratulations To President-Elect**

DAYTON, Ohio, Nov. 3.—Governor Cox today sent his congratulations to Senator Warren G. Harding, thus formally conceding his defeat. His message follows:

"In the spirit of America, I accept the decision of the majority, tender as the defeated candidate my congratulations and pledge as a citizen my support to the executive authority in whatever emergency might arise."

(Signed) "JAMES M. COX."

Neither reads a great deal but they are fond of the theater and especially the more serious plays.

Harding has been primarily a newspaper publisher during his entire manhood, although he has carried on politics as a side line most of the time. Identified with the Republican machinery since he became a voter, Harding, however, has held office only a comparatively short time. He was in the state senate from 1899 to 1903, was lieutenant governor the next two years, ran for governor but was defeated and went to the Senate in 1914. He rounds out his first term as United States senator March 4, next, just as he steps into the White House.

Harding was a political protégé of the late Senator Foraker of Ohio and was allied with his faction for many years. But by a strange twist of fate, Harding ran against Foraker for the senatorial nomination in 1914 and won, ending the public career of the famous Ohio boss who had brought him up in the political world.

Harding has a reputation throughout the country as being a second McKinley. He himself has often said he saw little resemblance, yet close friends of both see a parallel in their tariff views and in their willingness to be guided by advice, and in some of their mannerisms. Both have grave countenances and probably no one ever slapped either on the back.

Harding has an ability, which he often reveals to those close to him, of standing back and taking stock of himself. On these occasions the extreme simplicity of the man stands out. It is attributed in part to his simple early life.

His earliest sport was diving into the swimming pool at Caledonia where he moved as a small boy.

About the time he got into long trousers he learned to play the cornet and joined the village band.

They have no children and there are no pets around the Harding house at present. Both are fond of dogs and kept a big collie for years, but one day it mysteriously took ill and died. Since then they have had no dog.

Senator Harding is a Baptist and Mrs. Harding is a Methodist. Harding is an Elk and a member of the Masonic order. He smokes cigars and cigarettes, but prefers to dry smoke a long, black stogie.

Harding is simple in his dress, wearing the conventional frock coat and only when formal occasions demand it. At other times he wears an easy fitting two button sack coat.

Harding never affects anything freakish in the way of string neckties or shaggy hair. His hair is always neatly trimmed and he wears turn down collars with neatly tied cravats — purple being his favorite color.

**RIVERSIDE PROSPERING**

RIVERSIDE, Nov. 3.—Post office receipts, considered a most reliable barometer of business conditions, show that prosperity prevails in Riverside. Like the bank clearings which showed an increase of 47 per cent for the month of October, the receipts at the post office registered a gain of 31 for October as compared to the same month a year ago. Here are the figures: October this year, \$7662.18 and October last year, \$5322.27.

## HARDING'S 'JUST FOLKS' SAYS U. P. MAN

By RAYMOND CLAPPER (United Press Staff Correspondent)

MARION, O., Nov. 3.—If Warren G. Harding, now president-elect of the United States, had only been born in a log cabin—but he wasn't and any truthfully intimate story about him must begin with the bald statement that he was born in a small frame house at Blooming Grove, a village near here, of poor, but thrifty parents, his father being a struggling country doctor who rolled his own pills and treated horses as well.

The log cabin story was killed by Harding himself shortly after he was nominated for the presidency and the incident reveals more about the man who is to be the next president of the United States than could steps of his father, and the latter told in a book. It illustrates the absence of any "front" about Harding and his simple sincerity, one of the outstanding traits of the man.

"I don't like to spoil a good story for you boys," Harding said to the newspaper men in explanation, "but the truth is I wasn't born in a log cabin at all. I wish it had been but alas it was only a frame house."

It will be difficult for anyone to really believe that the man and woman whose names are on millions of lips today are just plain, ordinary middle western Americans, who have spent their lives in a small town struggling for a place among the substantial citizens of the locality.

Nevertheless they are the people novelists seek to describe as the typical Americans, prosperous in a small way, intelligent and fairly well educated, though not so well read perhaps, knowing little about many hospitable and generous, severely conventional, regular attendants at church and lodge meetings, fond of commonplace matters, exarably fried chicken and of sitting in rocking chairs on the front porch afterward.

There you have the Hardings. They haven't changed much with the good fortune that has recently come to them. It is true that Mrs. Harding used to work in her own kitchen and that now they have a cook, but her husband still has his clothes darned to make them wear longer, he shaves himself with an old fashioned razor, his shirt cuffs are turned when they get frayed on one side, and Mrs. Harding herself wears a hat clear through the season and sometimes longer for she is wearing her last summer straw hat in October this year.

The Hardings live in a big green house with a large white front porch on Mount Vernon avenue, a quiet, shady street here. It is a good street but not in the most exclusive section of Marion, if a town of thirty thousand could have an exclusive section.

When Harding went to the Senate Mrs. Harding set up a home in Washington, but to the consternation of many of the ladies of the senate, she continued to invite her old friends in regardless of their social standing in the "senatorial circle."

If she runs true to form, anyone in Marion probably will be able to wear a hat clear through the season and get an invitation to stay to dinner.

Mrs. Harding has what they call "gumption" out here in Ohio. In her youth she was a skilled horsewoman, her father, who was a wealthy business man here, having owned a fine string of riding horses.

Now she takes most of her recreation in the form of automobile riding. That is one reason Hardings never travel on the train if good roads are available. Most of the trips to and from Washington are by motor and all trips in Ohio are by that method.

Harding played tennis years ago, but relies on golf for recreation now.

**Gov. Cox Telegraphs Congratulations To President-Elect**

DAYTON, Ohio, Nov. 3.—Governor Cox today sent his congratulations to Senator Warren G. Harding, thus formally conceding his defeat. His message follows:

"In the spirit of America, I accept the decision of the majority, tender as the defeated candidate my congratulations and pledge as a citizen my support to the executive authority in whatever emergency might arise."

(Signed) "JAMES M. COX."

Neither reads a great deal but they are fond of the theater and especially the more serious plays.

Harding has been primarily a newspaper publisher during his entire manhood, although he has carried on politics as a side line most of the time. Identified with the Republican machinery since he became a voter, Harding, however, has held office only a comparatively short time. He was in the state senate from 1899 to 1903, was lieutenant governor the next two years, ran for governor but was defeated and went to the Senate in 1914. He rounds out his first term as United States senator March 4, next, just as he steps into the White House.

Harding was a political protégé of the late Senator Foraker of Ohio and was allied with his faction for many years. But by a strange twist of fate, Harding ran against Foraker for the senatorial nomination in 1914 and won, ending the public career of the famous Ohio boss who had brought him up in the political world.

Harding has a reputation throughout the country as being a second McKinley. He himself has often said he saw little resemblance, yet close friends of both see a parallel in their tariff views and in their willingness to be guided by advice, and in some of their mannerisms. Both have grave countenances and probably no one ever slapped either on the back.

Harding has an ability, which he often reveals to those close to him, of standing back and taking stock of himself. On these occasions the extreme simplicity of the man stands out. It is attributed in part to his simple early life.

His earliest sport was diving into the swimming pool at Caledonia where he moved as a small boy.

About the time he got into long trousers he learned to play the cornet and joined the village band.

They have no children and there are no pets around the Harding house at present. Both are fond of dogs and kept a big collie for years, but one day it mysteriously took ill and died. Since then they have had no dog.

Senator Harding is a Baptist and Mrs. Harding is a Methodist. Harding is an Elk and a member of the Masonic order. He smokes cigars and cigarettes, but prefers to dry smoke a long, black stogie.

Harding is simple in his dress, wearing the conventional frock coat and only when formal occasions demand it. At other times he wears an easy fitting two button sack coat.

Harding never affects anything freakish in the way of string neckties or shaggy hair. His hair is always neatly trimmed and he wears turn down collars with neatly tied cravats — purple being his favorite color.

## Today's Citrus Market

NEW YORK, Nov. 3.—Nine cars oranges and 3 lemons received. Oranges 25 to 40 cents higher. Averages, \$5.46 to \$12.25. Highest, 12 boxes President, \$12.75. Lemons 10 cents higher on 300 size, 25 cents higher on other grades and sizes. Average \$2.28 to \$4.19. Weather fair. Temperature, 8 a. m., 44.

## City and County

Reports from the Community Hospital today were that Mrs. Blanche Newton of Anaheim was doing as well as could be expected. Mrs. Newton was seriously injured Monday evening when the machine in which she was riding with her husband and their two children was struck by a machine driven by A. N. Cox, of Santa Ana. The accident occurred at the intersection of Grand avenue and Seventeenth street.

An automobile belonging to E. E. Peck, 628 South Grand, Orange, and a truck belonging to the Chapman Lumber company were slightly damaged when they collided at the corner of Fourth and Main streets at 8:30 o'clock this morning.

Plans for Boy Scout work in Santa Ana are to be made at a meeting of local Boy Scout leaders tonight at the church of the Messiah.

## EXCESS PROFITS TAXES TO HAVE SUBSTITUTE

PASADENA, Nov. 3.—Robert Casamajor, of 514 Central building, is home from the convention of Investment Bankers' association of America at Boston and reports that the association's gathering was a great success in that means were devised to promote a movement to do away with the excess profit taxes. These taxes, it was said, are pyramidical costs of manufactured articles and commodities. The remedy devised is in substituting a commodity tax at a fixed rate. Through this it is hoped to reduce costs of goods, raise all the taxes the nation may need, eliminate to a great extent the auditing forces necessary now under the present income tax laws and simplify taxation so that a man may know at once what his taxes on goods may be and load costs accordingly.

Casamajor also said it was stated that the Treasury Department had announced that it expected to collect \$1,500,000,000 additional income taxes from the people for the years 1917 and 1918 through the force of field auditors now at work checking schedules.

The convention, through its legislative committee, also recommended that all state associations endeavor to get a security selling law copied after the Maryland fraudulent securities act which permits the sale of securities by anyone under supervision of a state board of commission that functions like the California Railroad Commission which can stop sales whenever complaint is properly filed. This would have all the salient features of the blue sky laws except the licensing feature and would make it possible for concerns to float their securities under the supervision of a competent board.

In High Esteem  
Casamajor said the California Railroad Commission is held in high esteem through the East for its fairness and efficiency and with the Wisconsin commission is rated at the top of public utility regulating boards. The idea of the change in the security sales laws from the blue sky laws is that a clever crook with a clever lawyer can remain just inside the blue sky laws and sell worthless stuff while a regulating commission could stop any irregularity and not stamp all security men as dishonest.

The soldiers' bonus bill is causing some considerable worry in financial circles in the East, he said, as it is in the Senate as unfinished business and financial men hold it will load the country with a vast debt that will put a tax on every share of stock at par value whether of that value or not and will pile up an additional national debt that will further inflate the credit and currency, with attendant taxes and higher costs of goods. A determined effort to defeat the measure will be made.

The Western bankers all believe that prosperity in the securities markets will be great this year, as the people are now buying stocks and bonds as investments instead of spending money for luxuries and unessentials.

## Rankin's Great November Sales

## THE CHEERFUL CHERUB

In winter chimneys act alive  
As skyward clouds of smoke they fling,  
But in the summer time,  
poor dears,  
They never get to do a thing.

## HARDINGS TO VISIT TEXAS ON VACATION

MARION, Nov. 3.—Warren G. Harding awoke today to find himself president-elect of the United States by the largest majority ever given any presidential candidate.

He is the seventh native Ohioan to be elected president, all Republicans.

The Hardings will rest today. Tomorrow night Marion will stage its big celebration in honor of the senator's election.

President-elect Harding and his wife expect to leave Marion Friday or Saturday for Point Isabel, Texas, only six miles from the Mexican border, for a two weeks rest.

After two weeks at Point Isabel it is likely that Senator Harding will take a cruise in Central American waters, probably inspecting the Panama canal.

## CHARGE PRIEST TOOK FUNDS FROM CHURCH

NEW YORK, Nov. 3.—A claim for \$369,672 against the estate of the Rev. John H. Strzelecki, who at the time of his death in December, 1918, was rector of St. Stanislaus (Polish) Roman Catholic church here, was awarded the Roman Catholic archdiocese of New York in a referee's finding filed in the surrogate's court.

John F. Brennan, of Yonkers, referee, reported that testimony of expert accountants showed that the priest had misappropriated funds belonging to the church, and that his brother, Julian Strzelecki, who served as clerk of the church, had taken possession of cash, bonds, bank books and other valuables, which belonged to the archdiocese.

Cider and vinegar makers at Spokane, Washington are paying \$9 to \$12 a ton for cull apples.

Sweet potatoes have proven a profitable crop on the cut-over piney woodlands of central Louisiana.

The California Cooperative Canneries have announced that new machinery has been installed in their Visalia plant to make into oil all the surplus olive crop of the valley, no canning to be done on account of adverse market conditions.

## CABINET BUILDING BEGINS AT CAPITOL

WASHINGTON, Nov. 3.—Discussion of cabinet possibilities followed close today upon the election of Senator Harding.

Apparently well founded reports named Elihu Root as the likely secretary of state. It was intimated that Root would be selected to guide the work of settling the treaty and league of nations negotiations with foreign powers and that after this was accomplished he would retire.

Governor Frank O. Lowden of Illinois was mentioned as a possible secretary of commerce or head of the treasury department with the former post most likely.

Herbert Hoover's name was heard persistently as the possible secretary of the interior, and Henry Wallace of Iowa, publisher of a farm newspaper, was being talked of as secretary of agriculture.

For secretary of war it was learned that Lindley M. Garrison, who held the post at one time under President Wilson and who had a difference of opinion with him, would be considered.

The organizing ability of Will H. Hays, chairman of the Republican national committee caused him to be considered for the post of general secretary. Several of these possible appointments are understood to be looked upon most favorably by Republican leaders in Harding's confidence.

## CAL. G. O. P. GAINS CONGRESS DISTRICTS

SAN FRANCISCO, Nov. 3.—California will send an overwhelming Republican delegation to congress, returns early today clearly showed. These figures practically assured the election of the following congressional delegation:

Republican—C. F. Curry, Julius Kahn, John I. Nolan, J. A. Elston, H. E. Barbour, A. F. Free, C. F. Van De Water, H. Z. Osborne and Phil D. Swing.

Democrats—C. F. Lea and John E. Raker.

Indications were that Charles Randall, Prohibitionist, had been unseated, Van De Water having been his opponent. The result gives California Republicans two more seats in congress.

## TO PAY COUNSEL FEES

An order signed by Superior Judge Z. B. West today directs Charles Lippman of Fullerton, to pay his wife, Ida A. Lippman, \$50 for attorneys' fees and \$10 weekly for the support of Mrs. Lippman and her child, pending the trial of her action for divorce. The order was entered pursuant to stipulation by the opposing parties.

The Tulare Cooperative Poultry Association did a business amounting to \$20,000 for the month of September.

## TWO IN AUTO CRASH ASK \$800 DAMAGES

Mr. and Mrs. J. H. Foyle of Orange today filed against Mr. and Mrs. B. F. Porter a suit in superior court through which they will seek damages in the sum of \$800, alleged to have been suffered as the result of an automobile accident at the corner of Spadra and Orangethorpe avenues on June 26, last.

The plaintiffs charged that negligent driving on the part of Porter was responsible for the accident. Porter, the plaintiffs declared, was driving on the wrong side of the highway.

Mr. and Mrs. Foyle declared they suffered \$450 damages as a result of being deprived of the use of their automobile for a certain period. The amount of the damages asked accrued through depreciation to the machine, the plaintiffs set forth.

## TURLOCK MAY HAVE DEHYDRATING PLANT

TURLOCK, Nov. 3.—Robert de Journal of Fresno, was a visitor in Turlock, investigating the opportunities for the successful operation of a dehydrating plant here. He was the guest of D. F. Mahaffy of the Turlock Merchants' and Growers' De Journal is interested in plants of this character throughout the state and has just completed a successful season at a plant he put in at Santa Rosa. He expressed himself as most favorably impressed with Turlock and this district and declared his willingness to put in a plant provided there be sufficient patronage to warrant it.

Mr. Mahaffy will at once investigate the matter of dehydrating sweet potatoes and will have the necessary tests made, being of the opinion that they will be successful.

According to Mr. de Journal, the treating of vegetables and fruits by this method is bound to increase rapidly, as the increased freight rates are working a great hardship to the shippers of fresh produce. He believes that each year will see a marked increase in the use of the dried product.

## IMPLEMENT FIRM WINS IN SUIT OVER NOTE

M. Ettiste & Son, of Orange, implement dealers, today won judgment by default in a suit to recover \$300 and accrued interest from May, 1919, alleged to have been due on a note given by D. Erramuspe of Irvine. Judgment was given in the court of Superior Judge West and was for a total of \$339.77.

The Stanislaus Sweet Potato Growers Association has 400 members, representing an acreage of 5,000. Stanislaus County is harvesting sweet potatoes. At least 1,000 cars loads will be sent out this season.

## A Furniture Store in a Location which Enables You to Furnish Your Home for Less

### THE SHIP OF STATE

Whatever the individual may have  
regarded as the paramount issue of  
the campaign brought to a glorious  
conclusion at the polls yesterday, he  
must admit that it was definitely and  
finally decided.

Such tremendous pluralities as  
those given the Republican candi-  
dates leave no room for doubt that  
the American people do NOT want  
THE League of Nations; do NOT  
want one-man government; do NOT  
want extravagant, inefficient politi-  
cal administration; do NOT want  
idealistic internationalism; do NOT  
want Democratic free trade, or  
"tariff for revenue only."

And those tremendous pluralities  
mean that the American people DO  
want a truly democratic business  
administration; DO want a real pro-  
tection tariff; DO want a league of  
nations or some safe equitable as-  
sociation of powers and governments  
that will prevent war; DO want a  
conscientious, self-respectful, self-  
protective, humanity-loving, human-  
ity-helpful national consciousness and  
policy.

It is fortunate, indeed, that the  
"silent ballot" has become "a loud  
voice crying in the wilderness;" that  
the vote of yesterday has decided the  
questions concerning which there  
has been so much contradiction, con-  
fusion and conflict—decided them  
unmistakably, unequivocally, unalter-  
ably.

The Ship of State can now sail on  
with certitude and confidence as to  
her captain, her crew, her course and  
her destination.

### WANT SPEEDY RELIEF

While other causes contributed to  
the effect—stupendous Republican  
pluralities—it will probably be con-  
ceded that the desire of the people  
for the restoration of the Republican  
policy of a protective tariff was  
among the greatest of these causes.

Farmers, mechanics, laborers,  
business men, professional people—  
everybody recognized the menace to  
our prosperity of cheap foreign labor  
and products. And the election re-  
turns clearly indicate that Demo-  
crats, Socialists, Prohibitionists and  
Farmer-Laborites alike want Repub-  
lican protection.

Therefore, with a Republican Presi-  
dent elected by the largest popular  
plurality in the history of the coun-  
try, and a big Republican majority in  
both House and Senate, the people  
have a right to expect—and, if it be  
not speedily forthcoming, to demand  
—the enactment of effective protec-  
tive tariff laws.

If ever unmistakable, unequivocal,  
mandate of ponderable moral force  
was issued to a President and Con-  
gress, such mandate with respect to  
a protective tariff was issued yester-  
day by the voters of this coun-  
try. And it is the further privilege  
and duty of those voters, through  
the press and their civic organiza-  
tions, to enforce that mandate—it  
need be.

However, it is reasonable to hope  
and believe that neither the Con-  
gress nor the President will need  
any reminder of the privilege and  
obligation which is theirs. But "may  
we not" say, with all due respect,  
that they should understand at the  
outset that unnecessary delay will  
not be tamely tolerated.

### FARM INCOMES

THE United States Department of  
Agriculture has just made public  
the results of continuous studies of  
farm profits extending over a five-  
year period of investigation.

Three groups of representative  
farms were studied: 25 farms in the  
hilly country of Washington county,  
O.; 100 farms in the corn belt in  
Clinton county, Ind., and 69 farms  
in Dane county, Wis., a dairy region.  
The same farms were visited each  
year and investigations were made  
along the following lines:

Distribution of farm area.  
Crop yields.  
Amount of work stock and of  
other live stock.  
Amount of labor used.  
Amount and distribution of farm  
capital.  
Amount and distribution of re-  
ceipts and expenses.  
Value of the family living obtained  
from the farm.

Amounts of the more important  
products sold and prices received.  
The outstanding fact shown by  
the department's carefully compiled  
figures is that in spite of the high  
prices which consumers have paid  
for foodstuffs in the past few years,  
the farmers themselves have not  
been making large profits.

There may have been a few ex-

ceptions, but of the farms investi-  
gated in the three areas, none made  
a labor income of \$1,000 for every  
year of the study, although twenty-  
five farms located in the most favor-  
able regions did average more than  
\$1,000 per year for the period. Four  
farmers made over \$500 labor income  
every year; fifteen per cent failed to  
make any labor income at all; ten  
per cent failed to make even five per  
cent return on investment in any  
year of the study.

The average return on investment  
increased from about four per cent  
in the earlier years to seven per  
cent in 1918. Most farmers are mak-  
ing less than \$500 cash per year over  
and above the things the farm fur-  
nishes toward the family living.

Although the statistics show that  
farm incomes have increased during  
the years 1916-18, as compared with  
incomes for 1912-15, these increases  
are chiefly on paper. The decrease  
in purchasing power of the dollar  
has made the bigger incomes equiv-  
alent to very little more than the  
smaller ones when counted in terms  
of things they will buy, rather than  
in terms of dollars and cents.

### TRAVEL BY PLANE

France announces the opening of  
air service between Paris and Stras-  
bourg, and gets a half inch in the  
papers. A mail plane drops in  
America and gets a streamer clear  
across the front page. There could  
be no better indication of how the  
European people have come to look  
at aerial travel nowadays and of  
what it means in the United States.  
Paris-London air service, for pas-  
sengers and mail, has been working  
steadily for months and is attract-  
ing a steadily increasing volume of  
business. One can go almost any-  
where in France by plane, and the  
system is expanding every week.

Strasbourg and Munich are to be  
linked before the end of the year,  
and beyond them are Prague and  
Warsaw, Vienna, Belgrade, Buda-  
pest. It is promised that, in another  
year, passengers may dine in Lon-  
don one night and in Constantinople  
the next, having traveled approxi-  
mately 2000 miles in the 24 hours.

Right now there is a London-Am-  
sterdam-Copenhagen route which  
will lead to Berlin, and a London-  
Lyons-Milan route. Spain and Italy  
are planning cross country service.  
The airplane industry doesn't lag.

Already night flying has become  
quite general, and much attention is  
being directed to the problem of  
adequate illumination. Swift as it  
is the commercial airplane cannot  
afford to spend the night in its shed  
while trains, steam ships and motor  
trucks are out and busy.

The airplane is an American in-  
vention, but America has lost lead-  
ership both in its manufacture and  
its utilization.

### NO COAL TO SPARE

THE National Coal Association has  
recently stated that enough bitu-  
minous coal is being mined to do  
the country through the winter. The  
amount necessary is 12,000,000 tons  
weekly. The average weekly out-  
put for the four weeks ending Oct. 9  
was 11,723,250 tons. The average  
production before that was 10,500,-  
000 tons.

These figures show plainly that if  
we keep up the present output, the  
country can get through the winter  
without serious trouble. But if that  
output lessens, shortage is immi-  
nent. There is no margin of safety  
in the present quantity of coal being  
mined.

The mining of anthracite is also  
increasing, but there is no surplus  
there either.

Obviously, the United States can-  
not afford to export coal at present.  
Yet the British miners are on strike,  
Britain will soon use up its reserve,  
and unless the mine strike is swiftly  
settled, there will be a clamor in  
England for American coal.

There is power to prevent this ex-  
port. The Interstate Commerce  
Commission, by maintaining its pri-  
orities can put a check on export,  
and the president can, if necessary,  
re-establish the fuel commission.

It is to be hoped that it will not be  
necessary to revive these wartime  
measures. If the British strikers  
soon return to work, there will be  
no need. But diverting coal from  
our none too generous stock to Eng-  
land, thus putting off the day of  
reaching any final solution of Eng-  
land's problem, and giving our coal  
operators a chance to close our fac-  
tories and workshops for the sake of  
getting high prices from abroad  
would be a bad business. This is no  
year to export coal, nor to permit it  
to be exported.

### THAT'S EASY!

If you believe that most people are  
honest, why are there more "Lost"  
ads than "Found"?

In the foregoing paragraph, as in  
some of his others "Cholly Mack  
says" what isn't true. That is,  
"Cholly," like all other "Columbists,"  
sometimes sacrifices truth on the  
altar of cynical epigram. The real  
reason why there are more "Lost"  
than "Found" ads in the paper is  
that both the finder and the loser  
very properly assume that it is up  
to the loser to do the advertising.

The British public may now have  
a period of watchful waiting—  
Grand Rapids News.

## Loyalty.

The Era.

Loyalty is that quality which prompts a person to be true to the thing  
he undertakes.

It means definite direction, fixity of purpose, steadfastness.

Loyalty supplies power, poise, purpose, ballast, and works for health  
and success.

Nature helps the loyal man. If you are careless, slipshod, indifferent,  
Nature assumes that you wish to be a nobody and grants your desire.

Success hinges on loyalty. Be true to your art, your business, your  
employer, your "house."

Loyalty is for the one who is loyal. It is a quality woven through the  
very fabric of one's being, and never a thing apart. Loyalty makes the  
thing to which you are loyal yours. Disloyalty removes it from you.

Whether any one knows of our disloyalty is really of little moment,  
either one way or the other. The real point is, how does it affect ourselves.

Work is for the worker. Love is for the lover. Art is for the artist.

The mental is a man who is disloyal to his work. All useful service  
is raised to the plane of art when love for the task—LOYALTY—is fused  
with the effort.

## Conservation of Scenery

Seattle Post-Intelligencer

We of the newer west get  
some hint of the annoyances and  
troubles in store for us in the  
future from the experiences of  
the older states. Just now State  
Botanist Homer D. House of  
New York, and such of his con-  
stituency as are interested in the  
local flora, are worrying about  
the destruction of the wild  
flowers and the near approach  
of their disappearance from na-  
ture's nooks. The automobile  
has extended human activities  
to the extent that people are  
living all over the state instead  
of being sequestered in cities,  
towns and villages. Formerly,  
before the day of the auto, there  
were places as wild and as se-  
cluded as the day that  
Christopher Columbus discover-

ed America, and many of these  
were made beautiful by wild  
flowers. Some million people  
are now almost daily engaged  
in poking about the wild places,  
picking the flowers and leaving  
traces of their lunches scatter-  
ed about. Mr. House visions  
the complete disappearance of  
the native wild flower under this  
treatment.

It has long been the tendency  
of man to destroy that which  
he has a regard for. The very  
worst form of appreciation that  
may be extended a beautiful  
flower is to end its life by pick-  
ing it from the parent plant.  
We go to the trouble of produc-

ing these at home, only to des-  
troy them. It is therefore not  
strange that people are invading  
the wild places, going into rap-  
tures over the beauty of hill-  
side and nature nooks, and call-  
ing going about the business of  
destroying it all.

Botanist House calls urgently  
for some form of restraint. He  
wants the present wildflower  
charm of the country preserved  
by law. It is going to be dif-  
ficult. New York cannot make  
a park of its back country and  
patrol it like a city park. Con-  
servatism will simply make for  
clandestine flower picking and  
tourists will conceal them in-  
stead of flaunting them.

The people of the west may  
be thankful that it will be many  
years before the growth of popu-  
lation induces restrictions on  
scenery. A Seattleite is now  
able to reach the heart of the  
primeval wilderness within an  
hour's ride of the city and in  
the state at large citizens are  
getting lost in its wilds almost  
every day. We have so much  
wilderness that some of it is  
inconvenient. It costs about  
\$250 an acre to take the wilder-  
ness out of every acre of our  
cultivated land. It will be many  
years before we get to the  
point of conserving our scenery,  
and meanwhile easterners, de-  
prived of their home wildflower  
charms, may come here and  
enjoy it.

## Worth While Verses

### NEARER HOME

One sweetly solemn thought  
Comes to me o'er and o'er;  
I am nearer home today  
Than I ever have been before:

Nearer my Father's home  
Where the many mansions be;  
Nearer the great white throne,  
Nearer the crystal sea;

Nearer the bound of life,  
Where we lay our burdens down;  
Nearer leaving the cross,  
Nearer gaining the crown.

Oh, if my mortal feet  
Have almost gained the brink;  
If it be I am nearer home  
Even today than I think,

Father, perfect my trust;  
Let my spirit feel in death  
That her feet are firmly set  
On the rock of a living faith.  
—Phoebe Cary.

## TODAY'S TALK

By George Matthew Adams

### THE UNIVERSAL FATHERHOOD.

God is here and now—not sometime or somewhere!  
He is wrapped in kindness—kneeling and watching beside hospital  
beds, silently following sad and discouraged humans, unknown to them—  
and in every beautiful act and through every noble effort does His spirit  
run like the electric current through meaningless wires.

He is the universal fatherhood "watching overhead!"  
"In the dim unknown" does this great idea work its way. Across  
continents—quicker than any wireless message—does this mysterious force  
of the universal fatherhood extend its course.

Little humans that we are, we would be quite useless unless back of  
all our toil did this feeling seem to urge and prod.  
The universal fatherhood manifests itself in what we are to some  
one else.

Parentage is the greatest gift of the Infinite.  
The father and mother heart is but an exemplification of the universal  
fatherhood of God and man. We are grand parts of the great whole. We  
are nothing as individuals working out a little game all to ourselves.

Be very happy over being a helper. That's what we may claim as our  
highest privilege.

So that we may run right along with the universal fatherhood of the  
world, and thus become as stars in a black night sky.

### MISREPRESENTATION

Editor Register: Will you kindly  
grant me space to say that the ad-  
vertisement which appeared in the  
Register on Monday over the sig-  
nature of Pease, Kolberg and Co.,  
opposing the anti-alien land law, did  
not express the views and senti-  
ments of said firm. The advertise-  
ment was inserted through mistake  
and misunderstanding, and without  
having been read by the members  
of the firm.

PEASE, KOLBERG & CO.  
By Fred Siefert, Secy.

Some of the restaurants say  
boldly enough that they will not re-  
duce prices. But will none of them  
put some lemon in lemon pie?—New  
York Herald.

Now that calic has dropped 50  
per cent, all that is needed is to in-  
duce the girls to wear it.—Washing-  
ton Post.

## NEW MAXWELL AGENT TELLS CARS MERITS

An announcement that came as a  
surprise on auto row recently was  
that F. B. Smith had concluded ne-  
gotiations for taking over the Max-  
well agency for this territory. Smith  
is now operating under the name of  
the F. B. Smith Motor Company, 521  
North Main street, his son having  
come here recently to be identified  
with him.

"I took the Maxwell agency after  
a careful investigation had convin-  
ced me that the car represented the  
best thought in design and the finest  
material in construction and work-  
manship at anywhere near the price,"  
said Smith today.

"The financial strength of the Max-  
well factory and the enviable record  
of the car itself over a period of  
years were also factors which in-  
fluenced me in favor of the Max-  
well," Smith continued.

"It is essential today that a pas-  
senger car be sturdy, economical  
and comfortable. These important  
features have been most earnestly  
characterized in the Maxwell models  
from the exterior finish to the small-  
est bolt in the car."

"In appointing the F. B. Smith  
Motor Co., as Maxwell dealer in San-  
ta Ana," says H. L. Arnold, distrib-  
utor for Southern California and Ari-  
zona, "I did so with full confidence  
that present and prospective owners  
of Maxwells will derive maximum  
benefit by the personal interest, at-  
tention and good judgment of Smith.

His experience has been such as to  
assure him the co-operation and sup-  
port of the best business interests  
in Santa Ana."

Two thousand acres, formerly dry  
land, will be put under water at  
Leavenworth, Chelan County, Wash-  
ington.

The federal horticultural board is  
considering necessity of quarantining  
Alabama because of the presence  
there of the Mexican bean beetle.

## BLUE SAILOR SUITS DECREED BY COURT

Strange as it may seem, up to the  
year 1748 officers of the British navy  
had no distinctive uniform, although  
one had been adopted in the French  
service as early as the middle of the  
previous century. An examination of  
the portraits in the National Gallery  
at Greenwich reveals "every variety  
of cut and complexion" of dress,  
and the officers appear to have been  
habited according to their tastes;  
sometimes extremely fanciful, some-  
times grotesquely. G. E. Manwaring  
gives the story in the Mariner's Mir-  
ror (England). Most of the crack  
captains in the navy designed special  
uniforms for their own ships. In  
1748, when on a visit to the Viceroy  
of Canton, Anson dressed his barge's  
crew in scarlet jackets and blue silk  
waistcoats trimmed with silver, but  
such was the incongruity of dress in  
the service at the time. In 1741 an  
English officer went into active ser-  
vice wearing a jockey cap.

In 1746 an attempt was made to  
obtain some uniformity, and at a  
meeting called to discuss the subject  
it was resolved that a committee  
should be appointed to wait on the  
Duke of Bedford and the Admiralty,  
and if their lordship approved the  
scheme it was to be introduced to  
his majesty. It was approved and  
prominent naval officers were invited  
to appear in uniforms of their own  
design in order that a suitable one  
might be chosen. Among the officers  
was the handsome Captain Philip  
Saumarez, whose blue and white uni-  
form was eventually the one chosen.

The story goes that when it was  
proposed to the Duke of Bedford that  
the colors for the uniforms should be  
red and blue he replied: "No, the  
king has determined otherwise; for  
having seen my duchess riding in  
the park a few days ago in a habit  
of blue faced with white it took the  
fancy of his majesty, who has ap-  
pointed it for the uniform of the  
royal navy."

## IF THE FARMER KNEW

the value of our soft, white-pine shavings when  
plowed into heavy soil, he would be paying us liber-  
ally for them. We are making about five large  
header-box loads a day and in order to keep our  
bins clear we are obliged to burn two of these loads  
daily.

## THE SOCIAL MIRROR

Churches  
Personals

Hermosa Chapter, Star,  
Elects Her Officers

Following the regular business routine at the meeting of Hermosa chapter, O. E. S., Monday evening, officers were elected to serve the ensuing year as follows: Laura K. McCormack, Worthy Matron; George Balderston, Worthy Patron; Kate Cornelius, Associate Matron; Mary B. Whidden, secretary; Nell D. Winslow, Treasurer; Tiessean Whitson, Conductress; Mabel Rowland, Associate Conductress.

After election of officers refreshments were served in the banquet room, and a social time was enjoyed.

**Cards At Country Club.**  
The regular monthly card party of the Orange County Country Club will be held tomorrow evening at the clubhouse at eight o'clock. Auction bridge will be the diversion. Mr. and Mrs. M. R. Scott, the hosts, will be assisted by Messrs. and Mrs. O. H. Egge and J. C. Metzgar.

**Regular W. R. C. Meeting.**  
The W. R. C. will meet in G. A. R. hall November 4, at 2 p. m.

**Drama and Short Story Section.**  
The Drama and Short Story Section of Eboli will meet at 2:15 o'clock Friday afternoon at the home of Mrs. F. D. Hawkingson, 412 West Second street. Hostesses for the afternoon will be Mrs. Hawkingson and Mrs. C. D. Brown.

EX-SUNSHINE CLUB  
HEAD ASKS DIVORCE

LOS ANGELES, Nov. 3.—Mrs. Charles H. DeMund, former president of the Sunshine society here, and well known in Los Angeles, has filed suit for divorce in Phoenix, Ariz., according to information received from that city.

Cruelty was the basis of the complaint, which was said to have contained charges to the effect that DeMund received endearing letters from other women and also objected to his wife's activities in church work. He was an atheist and interfered with her Christian beliefs and insisted on her ceasing to sing in a church choir, according to the complaint.

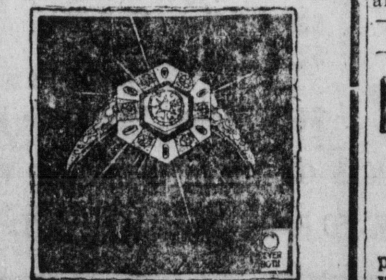

## MAGIC IN "AMERICA"

Magic lies in the word "America" for Serbian children struggling for existence. That is the message brought by Miss Helen Losanitch, who is making a speaking tour under the auspices of the Serbian Child Welfare Association, seeking aid for 600,000 destitute children of her country.

**A VAGRANT'S EPITAPH**  
Change was his mistress,  
Chance his counselor,  
Love could not hold him, duty  
forged no chain.  
The wide seas and the mountains  
called to him,  
And gray dawns saw his  
camp fires in the rain.  
Sweet hands might tremble—  
aye, but he must go.  
Revel might hold him for a  
little space,  
But turning, past the laughter  
and the lamps  
His eyes must ever catch the  
ruling face.  
Dear eyes might question—yea,  
and melt again,  
Rare lips a-quiver, silently  
implore,  
But ever he must turn his  
face to the head  
And hear the other summons  
at the door.  
Change was his mistress,  
Chance his counselor.  
The dark firs knew his whistle  
up the trail,  
Why tarries he today? — and  
Adventure lit her stars with  
out avail!  
—Theodore Roberts, in Scribner's Magazine.

**Choose Delegates to  
Big Club Convention**  
An especially interesting meeting of the Woman's club was held yesterday afternoon at the home of the president, Mrs. James Clark, 314 East Myrtle street, at which delegates were chosen to attend the Federated Club convention, to be held at El Centro November 18 to 19, inclusive. Delegates chosen were Mrs. Clark and Mrs. P. H. Finney, alternates to be Mrs. Margaret Wells and Mrs. Frank Ey.

The secretary was instructed to write a letter of condolence to one of the members, Mrs. Louisa Leslie, expressing the deepest sympathy for her in her cruel bereavement, the loss of two brothers in the east on the same day and almost the same hour.  
In the absence of Mrs. Mary F. Hutchins, who was to have charge of the program, Mrs. Nash very kindly consented to take charge and read in her inimitable manner a humorous prose selection from Whittier entitled, "Davenport's Courage." Roll call followed, with each member responding by giving some interesting current event. Mrs. Nash then read a beautiful poem, "Morning on the Desert," that was greatly enjoyed by all.

**WILL TOUR COUNTRY  
IN HOUSE ON WHEELS**  
WASHINGTON, Nov. 3.—J. W. Brashears, Jr., of this city has completed his "50-50 cruiser," in which he plans to make an extended tour of the United States.  
Brashears has designed his "cruiser" on the basis of 50 per cent mobility and 50 per cent comfort and convenience. It is constructed on an economical plan and, according to Brashears, is within reach of the average car owner who enjoys an auto hike about the country. The body is constructed on a touring car chassis and, despite the heavy appearance, weighs just 2700 pounds, or just the same as the original car with two passengers. The front seat is used as a sleeping porch. By his own arrangement Brashears can move the seat forward to the dash and he has a bed 44 inches by 6 feet 2 inches.  
In the interior he has arranged all the heavy material in such a way as to give stability to the "cruiser." All in all the cruiser is a snug little home. Its approximate cost, including cost of chassis and equipment was about \$1000. It is equipped with electric light, a fireless cooker, books and a clock.  
The living room has a clear floor space of 7 feet long and 2½ feet wide, with 6 feet head room, providing, in case of a breakdown, a place to live while awaiting repairs.

PROBE CASE OF GIRL  
FOUND DAZED IN S. F.

LOS ANGELES, Nov. 3.—Police were busy investigating the case of Miss Margaret Smith of this city, who was found in a dazed condition in front of St. Mary's cathedral, San Francisco. The young woman, who is 25 years old, said she lived with Mrs. Freda Smith, 1223 South Main street.

According to the story she told the police of the northern city she said she went to a motion picture show October 26 in this city. The next thing she knew she woke up in a lodging house in San Francisco.

8 BURGLARS SECURE  
\$40,000 IN BOOZE

CHICAGO, Nov. 3.—Eight burglars crawled through a rear transom, bound and gagging the watchman, stole \$40,000 worth of whiskey, gin and brandy from the warehouse of Manny Blanc & Co. More than two hours were used by the burglars in hauling away the plunder in two trucks.

ASKS TAX EXEMPTION  
BECAUSE HE'S MARRIED

BOSTON, Nov. 3.—"Last year I was working, but single, so could pay the tax. This year I am married so I am unable to pay."  
Those are the bold statements in a letter received by City Tax Collector Frank S. Deland, the poll tax bill for \$5 being inclosed.  
Collector Deland says he does not consider marriage a sufficient reason to exempt a man from paying his poll tax, and he is writing the citizen to visit his office for an informal discussion.

FINDS CHARM WHEN  
DREAM COMES TRUE

WILMINGTON, Del., Nov. 3.—J. T. Layfield, retired Pennsylvania railroad conductor, does not believe in dreams, but it was through one that he found a Masonic watch charm for which he had sought and advertised for weeks.  
One night he dreamed and awoke with a start, when the dream showed him finding his charm in the cellar of his home. He went to the cellar and found the watch charm.

## HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion, pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.  
Dr. Edwards' Olive Tablets—a substitute for cod liver oil—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a pure vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.  
Dr. Edwards' Olive Tablets act on the liver and bowels like cod liver oil—yet have no dangerous after effects. They start the bile and overcome constipation. Millions of boxes are sold annually.

Harvey Traveller Is  
Given Jolly Surprise

After taking dinner at the home of Miss Frances Goodale, 315 West Second street, last evening, Harvey Traveller and Miss Goodale went, upon invitation, to the home of his parents, Mr. and Mrs. H. D. Traveller, 620 North French street, presumably for a quiet evening with the family. Upon arriving there, however, a large company of friends greeted them and it developed that it was a surprise birthday party for young Traveller.

Following hearty congratulations, dancing and cards were enjoyed, the music being furnished by the honor guest's brother, Lou Traveller, composer of that snappy fox-trot, "Tio-san," and W. E. Alexander, who made the banjo "hum."

WOMAN NEUTRAL AS  
TWO MEN CLAIM HER

YOUNGSTOWN, O., Nov. 3.—Police court will have to decide whether Louis Javolo or Gustave Sotano is the husband of Hazel Fisher. Each says he is the legal spouse, while the woman is preserving an attitude of neutrality.

TURKEYS SELLING AT  
55 TO 56 CENTS LB.

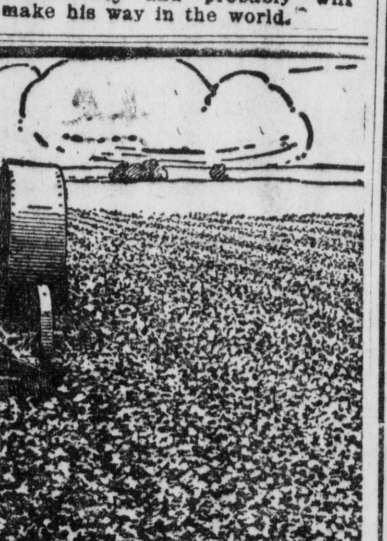

SEATTLE, Nov. 3.—Turkey season opened here with the first birds selling at 55 to 56 cents retail, but jobbers predict Thanksgiving turkeys will sell for 5 to 10 cents lower than at present. Jobbers are bidding 45 cents for turkeys delivered here. These will be used to fill Alaska orders.

## BIG FIND—\$2 REWARD

HARRY E. HAHN

NEW YORK—Harry E. Hahn, 17, a clerk for the Standard Oil Co., found an order on the Bank of Montreal to give the bearer \$1,200,000 in railroad bonds, while walking on Broadway. He took it to a well-known brokerage firm which had signed the order. A reward of \$2 was handed over and Harry was told he was an honest boy and probably will make his way in the world.

John Deere Built It  
For The Fordson

We can furnish you with the plow that John Deere built especially for the Fordson Tractor.

It is made of New Process John Deere steel.

That's why it is extra light and strong.

It's the lightest tractor plow you ever saw—weighs less than the average horse-drawn sulky.

It is tremendously strong—beams are guaranteed not to bend or break—all frame connections are hot-riveted—no loose joints—no give anywhere—it's the plow you can depend on to stand the strains of utilizing Fordson power under all plowing conditions.

Because of light weight and clean scouring qualities, it pulls extremely light. It's a real fuel saver. See it at work once, and you will appreciate how light it pulls.

Its correct line of draft, when hitched to the Fordson assures ideal penetration.

Its genuine John Deere bottoms scour, wear well and make good seed beds.

Its quick detachable shares are strong and close-fitting. Loosen one nut to remove a share; tighten the same nut and the share is on tight.

Its simple, strong power lift works perfectly. Lifting mechanism moves only when the plow is being raised or lowered—no useless wear.

If you are planning to buy a Fordson be sure to see this plow. Ask us to show you the John Deere No. 40—the plow that fits the Fordson.

BERLIN OPENS NEW  
TELEPHONE EXCHANGE

BERLIN, Nov. 3.—Berlin's rapidly growing telephone service has just opened, accompanied by generous newspaper publicity, two new telephone exchanges. The Belgian government officially complains that the switchboards in the new offices were stolen from Brussels during the war and there is every indication the new exchanges will be promptly closed, accompanied by more publicity. The telephone officials admit that the apparatus was taken in Belgium during the war for military purposes. Under the peace treaty it must be returned to the proper owners.

LONDON PAPERS ARE  
PLEASED AT RESULT

LONDON, Nov. 3.—The United States has revolted against supermen in politics, the Evening Standard said today. The Globe called Senator Harding's election a fortunate thing for Anglo-American friendship.

"It is a good thing that Governor Cox was snowed under," the Globe said.  
"He had pledged an interference in Irish affairs which England could not and would not have brooked. Fortunately, Cox will return to the obscurity from whence American politicians of his type rarely emerge."

Senator Harding does not intend that America shall become involved in the controversies of a powerless league of nations, the Globe said.

The league must be remodeled to permit American membership if it hopes ever to acquire power, this newspaper declared.

Colorado potato shippers report a very slow market.

Texas pecan growers are talking of a 25 cent price on their nuts.

Prune drying in the Willamette Valley of Oregon has been held up by rainy weather.

Hop growers of the Yakima Valley, Washington, find lighter yields than they had estimated.

Resinol  
for tired aching feet

For grateful relief from that swollen, dry and stiff sensation, bathe your feet with Resinol Soap and hot water. Then apply Resinol Ointment, rubbing it in thoroughly and allowing it to remain on for ten or fifteen minutes or over night, if possible.

This mild treatment rarely fails to soothe and invigorate tired, aching feet. All druggists sell Resinol Soap and Ointment.

## KOEPSSEL TELLS BIG THROG WATCHES VOTE PLEASURE OVER VOTE RESULT

The following interviews with men of both major parties and prominently identified with the campaign were obtained by the Register today:

A. E. Koepsel, chairman of the Republican County Central Committee, said:

"I am highly gratified over the election of Harding and Coolidge. Another source of gratification is that Harding will have a Republican congress back of him. I wish to thank all those who aided so loyally during the Republican campaign in Orange county."

B. E. Tarver, secretary of the Orange County Democratic Central Committee, said:

"There is little to say, except what is obvious from the vote in Orange county—that the people wanted a change. We put up the best fight we could. Now that it is all over, we are willing to accept the verdict of the people, wholeheartedly and without rancor."

S. W. Nau, chairman of the Democratic County Central committee, said:

"I believe in a large majority for the winning side and am perfectly satisfied at the turn affairs have taken. I held to the hope that Mr. Cox might win out by pulling a few of the Western states with the South and possibly a few states centering around Ohio. But even at the most I did not expect so large a majority as was shown. I wish Mr. Harding and his party the greatest success, knowing it is the wish of the people. Further, I believe that many large issues will terminate about the same as they would have if the vote had fallen the opposite way."

Walter Eden, elected yesterday to the State senate, said:

"I am mighty well pleased with the result, just as are all other loyal Republicans. I am especially well pleased over the election of Samuel M. Shortridge to the United States senate. The result in California and in other parts of the country reveals an overwhelming sentiment for a change in administration."

J. E. Lieb, prominent Republican, and who aided largely during the campaign, said:

"I consider the election of Harding and Coolidge due to the fact that the people realized a change was imperative at the White House. At no time did I expect the vote to be less than what was finally recorded. I consider that the most vital and pressing issues before the people will now be met squarely and to the people's satisfaction. There is no doubt that everything is for the best and that the country will benefit by the change."

## BERGDOLL LOCATED IN GERMANY, REPORT

COBLENZ, Nov. 3.—Grover Cleveland Bergdoll, who escaped from his guards in Philadelphia last May after having begun a five-year sentence for desertion from the United States Army has not been arrested in Coblenz or anywhere else in Germany, as reported, the American military authorities here declare.

Bergdoll, it is known, is in Germany, but he has innumerable means of protecting himself against arrest and of thwarting the efforts of the military to take him into custody, although his movements are being closely followed. He has never been in the occupied area.

## PRONTO

Keeps Drains  
Open

The worst household trouble—clogged drains—completely overcome by Pronto. Used occasionally, it keeps sinks, bowls, tubs and toilets open, sanitary, efficient, economical.

65c Per Can  
At Your Grocer's

Several thousand residents of Orange county last night saw the election returns flashed by the Register. Two stereophones operated from the second floor of the Register building threw the news on the wall of the post office building.

The United Press report began reaching the Register by special leased wire, with the operator in the Register's city room, at 3 o'clock yesterday afternoon. So long as it was daylight returns were posted. With darkness arriving so that the stereophones could be operated, the returns were thrown on the wall.

Crowds gathered on Third street beside the Register building.

The reports very soon indicated the drift of things.

That Harding was forging rapidly ahead was clearly shown even as

early as 6:30 o'clock.

Soon after the polls in this county closed at 7 o'clock, flashes were thrown indicating how the vote here was going on the partisan nominees and upon the more important of the amendments.

Had there been any question concerning the results nationally, doubtless the crowd would have remained until well beyond the hour of midnight. As it was the crowd remained until 11:30 o'clock. By that time, of course, the bulletins were showing the landslide to be general.

In addition to the posting of bulletins, the Register's election news service was extended to theaters and into many homes of the city and county. In some of the communities outside of Santa Ana, the Register sent the news to bulletin boards.

## ORDERS INMATES OF HOSPITAL TO COURT

NEW YORK, Nov. 3.—A writ of habeas corpus requiring the production in court of eighty-one inmates of the Manhattan State Hospital was granted by Supreme Court Justice McAvoy upon application by Louis Cohen, a lawyer, who has just been freed from the institution by the court as "sane and well balanced."

Cohen failed in an attempt to have the court pass today on the cases of the men whom he said were improperly detained and illegally committed and are entitled to the right of suffrage. Their hearings were set for November 23, Justice McAvoy ruling that the hospital authorities should have time to prepare themselves to meet the allegations and to be represented by the State Attorney-General.

Dr. M. B. Heyman, superintendent of the hospital, told the court that he could not produce all the inmates mentioned in the writ because he has not enough keepers to escort them and because several of them were sick and some were dead.

## GOB FINDS HE HAS BECOME MILLIONAIRE

EASTLAND, Texas, Nov. 3.—When Eli Perkins finished his period of enlistment in the United States navy recently and returned to his old home here he found awaiting him in a bank to his credit a sum of money said to be close to \$1,500,000 which had accumulated while he was serving his country.

This fortune came from oil leases and royalties from producing wells upon a poor and non-productive 160-acre farm, situated in the heart of the Eastland oil district. When the first well was brought in upon the young man's farm about two years ago, it caused great excitement. It was several months before Perkins heard anything about his good fortune, as his friends and relatives did not know just how to reach him in the navy. Before he enlisted he had executed the necessary papers for the lease and development of his piece of land.

One of the first things that young Perkins did when he got home was to pay court to a young woman who lived near Quanah. They were married a few days ago and started on an automobile honeymoon trip. The six-cylinder car which Perkins and his bride occupied met with disaster in the Peace River just south of Quanah. While crossing that stream the car went beyond its depth and was swept away by the strong current. Perkins took his bride in his arms and jumped from the car. He managed to swim and carry her to shore, but his \$6000 automobile was lost. The young millionaire, however, is not worrying any over the misfortune. He has plenty of money left and his oil wells are still pouring the golden stream into his lap.

The upper Columbia Valley reports the finest crop of apples ever harvested in that section, the fruit being practically free from codling worm.

## O.K.'S NEW GREEK KING

Premier Venizelos (above) announces that Prince Paul (below), younger brother of the late King Alexander, will be the new king of Greece, according to dispatches from Athens.

Venizelos virtually picked the new king because it was admitted that in case of Alexander's death, no successor could be considered without the O. K. of the premier.

## 2 HELD IN ATTACK ON GIRL AGED 13

Jack Hazel, 30, of Texas, and Harry Harville, 28, of Illinois, were in the felony tank at the county jail today, charged with attacking a 13-year-old Santa Ana girl.

It was stated Hazel and Harville arrived in Santa Ana about two weeks ago, and went to work in a local garage.

The alleged attack took place Sunday evening in Harville's automobile near South Broadway and Fairview streets. Hazel was charged with a statutory felony, and a charge of compounding a felony will be placed against Harville, it was said.

It seems that the two men became acquainted with two girls, one of them living at East Newport, about two weeks ago. After spending Sunday at the beach the party came back to the beach, leaving the East Newport girl at her home.

The alleged attack took place on the return trip. A severe struggle is said to have taken place between Hazel and the Santa Ana girl. Hazel is about six feet tall and weighs about 180 pounds.

Later the two men drove to their garage, where, it was said, they forced the girl to sleep in the car all night for fear she would go to her parents and report the matter to her parents at once. They were said to have tried to persuade her to keep the matter secret.

When their daughter did not return home, the parents reported her disappearance to Sheriff C. E. Jackson. The girl returned about 9 a. m. Monday morning. The girl for some time told her parents an evasive story regarding her whereabouts the evening before.

Later, however, she told a definite story and the arrest of the two men followed.

Although questioned but briefly thus far, it was said the two men deny any knowledge of the affair whatsoever. Officials in the sheriff's office said they suspect them of having criminal records. An investigation is under way.

## IMMEDIATE CREDIT FOR FARMERS ASKED

WASHINGTON, Nov. 3.—Extension of immediate credit relief to farmers by executive action, pending the reconvening of congress, was asked of President Wilson today by Geo. P. Hampton of the Farmers' National Council. In company with William H. Johnson, president of the International Association of Machinists, Mr. Hampton called upon Secretary Tumulty, who is understood to have promised to present the request to the president at once.

It was contained in a letter which said the proposals presented were endorsed by Mr. Johnston, B. M. Jewell, American Federation of Labor; Warren S. Stone, grand chief, Brotherhood of Locomotive Engineers, and Sidney Hillman, president of the Amalgamated Clothing Workers.

## RICH HOBO IS HELD ON VAGRANT CHARGE

MONROE, Wis., Nov. 3.—Sam Haack, wealthy tramp, who was arrested here after being discovered calmly smoking a cigar in a farmer's hay mow, was released on bail of \$1,000. When searched at the jail officers found \$2300 on his person.

There was money in his pockets, money in tobacco bags sewed inside both legs of his trousers, money in his shirt pocket and money pinned inside his shirt. There was over \$1500 in currency, two deposit certificates and a \$100 Liberty bond.

Officer Keenher found a lump inside the prisoner's leg just about the knee. He asked Haack what it was and Haack replied "nothing." Keenher fished it out and found over \$700 in neatly folded \$10 and \$20 bills. The officer also found and found two more bags, sewed to the trouser leg, which contained some more hundreds.

Haack claimed at the hearing to be a rug maker in Chicago. He is charged with vagrancy and pleaded not guilty. A brother, William Haack, arrived from Mineral Point and stated that his brother had always been an industrious worker but was inclined to wander.

## 12 TONS DYNAMITE USED IN ONE BLAST

ELY, Nev., Nov. 3.—One of the greatest blasts in Nevada has been successfully carried out by the Nevada Consolidated Copper Co. on its Copper Flat property.

Twelve tons of dynamite were used in the charge and a hill containing over 200,000 tons of material was leveled.

## STUDENT DIES WHEN WIND BLOWS OUT GAS

CHICAGO, Nov. 3.—C. L. Spring, 48, of Winnipeg, a student at the McCormick Theological seminary, was asphyxiated by gas in his room at the school. Harris Rummel, his roommate, went to their room to call him for supper and found him lying dead on the bed. Gas was escaping from an open jet. A window in the room was open and it is believed the gas light was extinguished by the wind.

## WOMAN, 98, VISITS POLLS FIRST TIME; VOTES FOR HARDING

CORONA, Nov. 3.—Corona undoubtedly has the right to claim the oldest woman voter, in the person of "Grandma" Lathrop, mother of Mrs. B. M. Lillibridge, of this city, who yesterday cast her first vote, for Senator Warren Harding. Mrs. Lathrop is 98 years old.

Another remarkable feature in connection with this fact is that there are four generations represented in the family and each generation voted, and voted the straight Republican ticket.

These generations are represented in "Grandma" Lathrop, Mrs. B. M. Lillibridge, a daughter; Chas. E. Lillibridge, a grandson; and Clyde Lillibridge, the grandson.

## GRAND LARCENY LAID TO EL MODENA MAN

A complaint charging Ramon Moreno with the theft of \$40 and three guns, the latter said to be valued at \$100, was sworn to today by Ramon Marianda and C. Castanos, of El Modena.

Moreno was said to have broken into a house rented by Marianda at El Modena and to have stolen the articles in question. The alleged theft was said to have followed Moreno's leaving the employ of Castanos.

A warrant issued today charged Moreno with grand larceny.

## WIFE ARRESTED FOR MURDER OF HUSBAND

OGDEN, Utah, Nov. 3.—Mrs. Laura Barker, 45 years of age, the mother of seven children, was arrested here on a complaint charging first degree murder in connection with the death of her husband, Charles Lee Barker, a railroad employe. Barker died last July. He is said to have been poisoned.

WANTED—5 first class cabinet makers at shop. Apply Fullerton Cabinet Works, rear 113-17 W. Santa Fe, Fullerton Calif.

## IRRIGATION BOARD MEN ARE SELECTED

VISALIA, Nov. 3.—Announcement is made by the California State Irrigation Association of the appointment of six Tulare county men, four of whom are Visalians to the advisory board of that organization. They are: J. Sub Johnson, Maurice E. Power, Ben M. Maddox and H. H. Holly, all of Visalia, and Ernest Daniels and Charles K. Towt, of Lindsay.

The association is waging a vigorous campaign for the Marshall plan which provides a unified water and power project that will irrigate 12,000,000 acres in California. Its membership is made up of representative citizens from all parts of the state, and the intention is to ask the legislature for an appropriation of \$500,000 to thoroughly examine into the feasibility of the scheme.

The Marshall plan which the association is backing, is the life work of Col. R. B. Marshall who has studied the topography of California for almost a third of a century. His position for eleven years as chief geographer of the U. S. Geological Survey, amply testifies that his project is founded in sincerity, experience and authority. It provides for diverting surplus waters from the Sacramento drainage basin into the San Joaquin valley in such a way that there will be plenty for all the 12,000,000 acres in both valleys. A dam across the Sacramento river at 420 feet elevation will turn the flow into two main canals running down either side of the valley; on the west side as far as Dos Palos and on the east side to a point near Fresno. A third canal will begin at 400 feet elevation on the Stanislaus river and extend south to a point between Fresno and Bakersfield. A fourth starts from the San Joaquin river, extending south clear around Bakersfield and back north on the west side to meet the terminus of the west canal at Dos Palos. Each canal will pick up the water from the streams it passes, and the wants of the winter season will be stored in suitable reservoir sites in the foothills.

# Economy opportunities that surpass our unrivalled special offerings of the past are now presented New merchandise at newly lowered price quotations

## Why we can sell for less than others

Nearly the entire stock of merchandise in the new store was bought recently on the new lowered price basis and then marked on a small margin of profit and quick turnovers. That is the reason why we can under sell. Each daily express and the parcel post man brings us something new, and the freight man is at our rear door daily delivering loads of merchandise all of which was bought on the very lowest basis. Consequently we own our goods right and can afford to sell for less than the merchant who is loaded with high priced goods. The November sales at this store will demonstrate and prove to the most skeptical buyer that our prices are right coupled with the best service, courteous treatment and an absolute guarantee of satisfaction.

### Bungalow Aprons \$1.45

A recent purchase of bungalow aprons bought on the new lowered price basis enables us to offer this line made of good percale in light and dark colors, worth \$1.75 and \$1.95, at

**\$1.45**

### Silk Petticoats \$2.00

Seco silk petticoats in changeable colors of blue and green. A half silk material which wears splendidly. Offered for less than cost of material, each

**\$2.00**

## NOVEMBER SALES

## Selling good merchandise is a pleasure

Conducting a store, supplying a large number of people daily with the necessities of life—in short, playing the game of business—is a real pleasure to us. We enjoy the friendly opposition of our competitors because it spurs us on to greater achievements in service and value-giving, and you benefit thereby.

Operating this store is a pleasure. We resort to no "shady" methods. The fear of being detected in some underhanded transaction is never present. Honesty dominates here. We play the game of business under rules that permit no exaggeration of values, no extravagant claims, no trickery and no "knocking" our competitors. Our merchandise and our methods of price-marking and selling must stand upon their own merits—by all of them we are willing to be judged.

We play the game of business with a clear conscience. That is why we enjoy it.

### Outing Gowns Reduced

Our entire stock of outing flannel night gowns for the new store was bought on the new basis enabling us to offer these values:

**\$3 Values \$2.25    \$3.25 Values \$2.50    \$3.50 Values \$2.75**

### Fancy Box Stationery

In the "bargain section of underpriced merchandise," west aisle—in the rear may be found these splendid values of fancy box stationery at 25c, 35c, 50c. Pound paper at 25c lb.

## A SPECIAL PURCHASE

Since the opening of this store less than two weeks ago nearly every garment originally shown has been sold and new ones have been bought—that's how fast we are turning merchandise. The secret of the whole system is in the buying—by selecting good, snappy styles and marking them at a small profit to compel quick turn overs. When a representative of one of the largest and best garment manufacturers in the U. S. approached us a few days ago we were in a position to buy. So here they are, coats, suits and dresses just fresh from their tissue paper packings—the most charming, delightfully made and trimmed—replete with the season's newest innovations. Many distinctly different models make up our stock; garments that are different from the commonplace, while at the same time suggesting unmistakable style correctness that is sure to please our exatting clientele. Second floor—take elevator.

## Sale of Dresses

WOULD YOU LIKE TO VIEW THE NEW STYLES IN WOMEN'S DRESSES AND TO BUY THEM AT A SAVING OF MANY DOLLARS?

If so, come to this store, and gaze upon the absolutely authentic assortment of ultra smart silk dresses we have gathered for your selection which we offer at wonderful savings. Of one thing we are certain, and that is, the styles sanctioned by Fashion are more charming this season than in previous years. Many changes from last season's dresses are evident—changes for the best, since they enhance the beauty and becomingness of the garments. The quality is there, as it is in every garment bearing our label.

**\$27.50 Values \$22.00    \$35.00 Values \$28.00    \$50.00 Values \$40.00**

Suits, Coats and Dresses  
Unequalled values offered at  
**\$50, \$75, \$100 and up**

## Sale of Suits

Suits of Marked Originality  
They are exclusive  
with us at only... **\$25**

You will be missing a great treat if you absent yourself from this sale of unusual import, for these modish suits were bought under conditions which make them an exceedingly fortunate purchase. Suits of fine all wool velour in the season's newest shades. Entirely new styles delightfully made and trimmed with fur collar and cuffs replete with the new season's innovations.

## INSTITUTE ASKS CITRICULTURAL EXPERIMENTS IN COUNTY

Riverside Conditions Held Different from Those Here, Is Claim

### LAUD DEMONSTRATIONS 1200 Growers Attend Sessions Held Last Week at Mother Colony

Adoption of a resolution asking the state University Citrus Experiment station at Riverside to conduct certain of its experiments, relating to the growing of citrus fruits, in Orange county, was one of the outstanding features of the second annual Farm Bureau Citrus Institute, held at Ward's Ranch, Anaheim, last week.

The resolution requesting such action was proposed by S. R. Coate of Anaheim and was unanimously adopted by the 200 growers present. The resolution follows:

"Whereas, we, the farmers of Orange County, are trying to receive benefit from the instruction of the faculty which has been brought to us by our county farm advisor, and

"Whereas, we are highly pleased with the interest which has been exhibited by the faculty, which has shown to us that they have spent a great deal of time and labor in order to draw the conclusions formulated, and

"Whereas, the seat of experimentation being located in a district or districts where the conditions affecting the growing of citrus fruits are widely different from that of Orange County, and

"Whereas, the full value of the efforts of the faculty in the present locations of their efforts, cannot be fully realized by the growers of Orange County, therefore,

Cite Experiment Needs.

"Be It Resolved, that we, the farmers of Orange county, California, assembled in Citrus Institute, this twenty-fourth day of October, 1920, do hereby present to those in authority, for their consideration, the needs of experiments within the bounds of the citrus district of Orange county for which consideration we, in advance, hereby express our appreciation.

"Be It Resolved, further, that these resolutions be spread upon the records of our County Farm Advisor in connection with this institute, and that further, copies be forwarded by him, to those in authority, whose influences would be valuable toward executing the sentiment herein."

The institute held at Anaheim, was a big success both in attendance and in subject matter handled during the programs.

1200 Present.

Some 1200 farmers were present during the six sessions. Demonstrations were given in pruning, fumigation and the control of scale bark. Interesting questions were raised and these were answered by the experts called in to discuss the numerous problems before the citrus growers.

Among the speakers were: Dr. H. S. Reed, pruning; Prof. H. S. Woglum, fumigation; Prof. R. E. Smith, aphid and red spider; Dr. I. G. McBeth, fertilizers; Prof. George P. Gray, fertilizer standards; Prof. R. S. Valle, tractors; and Dr. J. T. Barrett and Dr. H. S. Fawcett, tree diseases.

Direct route to Los Angeles via Motor Transit Lines leaving the depot at 5th and Sycamore street on half hourly schedule every day. The quickest route to Anaheim or Fullerton.

### 8 Boys and 3 Girls at Tustin Start in Pig Feeding Contest

On Saturday, October 23, eight boys and three girls from the Tustin district started on the 120-day pig-feeding contest.

The eleven contestants chose a red-colored weanling pig apiece and began the race on an even mark.

If feed prices continue to lower and market value of hogs remains around 17 cents the club members should realize a little profit from their project.

The boys and girls are showing great enthusiasm and interest in the club and no doubt some real porkers will be turned out.

### PAPER DEALS WITH SUNFLOWER FAMILY

Dealing with the various species of plants known as Crepis, a group belonging in the chicory tribe of the sunflower family and the various varieties scattered throughout the whole world, a paper by E. B. Babcock, professor of Genetics, and J. L. Collins, instructor in Genetics, in the State University, was released today from the University Press.

"Herodity is a subject which appeals to everyone's interest," Professor Babcock said today. "To the majority of persons however, it is more or less mysterious because the finer details of the biological machinery which make possible the facts of heredity are not generally understood. The Division of Genetics of the University of California is carrying on investigations designed to discover new truths about the hereditary processes in plants and animals. Such discoveries when fully established can be applied at least in a general way to human beings."

### COCKLEBUR SEED IN SECOND YEAR CLASS

In eradication the cocklebur, remember that it carries a double-barreled gun. Every burr carries two seeds, only one of which sprouts the first year. Even when the product of that seed has been killed the other will be in shape to make trouble the next season. The United States Department of Agriculture has circulated the cocklebur, telling how to get rid of it.

### AMERICANS NEED AID TO FOREIGN CUSTOMS

One has heard stories of foreigners traveling to Derby in order to attend our great racing festival, and of an American who alighted at the railway station at Buckingham and inquired the nearest way to the palace. The authors of the guide book that has been compiled for the benefit of overseas members of the All Friends Conference, now meeting in London, are anxious to save them from a similar misadventure. They warn them that in asking the way to Devonshire House—the Quaker headquarters in Bishoptate—they must remember that there is also a Devonshire House in Piccadilly, "it recently the London residence of the Duke of Devonshire."

That the topographical instructions of the guide book are intended mainly for Americans may be inferred from the note which informs members of the conference that "soda fountains are to be found at certain chemists' shops." They are warned that some of the Bishoptate restaurants are licensed to provide alcoholic drinks and that smoking is generally confined to a special room. They are told also that the British rule of the road is for vehicles "Keep to the left" and for pedestrians—"Keep to the right." Visitors may learn also that there is no "one fare any distance" traveling in London, and there are no "pay as you enter" cars. Attention is further called to the fact that the taxi-driver expects a small tip in addition to the fare shown in the taximeter. It is from such admonitions to the stranger that we discovered our insular peculiarities.

## GROVE DRAINAGE PROJECT NOT ABANDONED

Proponents May Employ Per Acre Basis to Finance Ditch System

GARDEN GROVE, Nov. 3.—While the bonds offered the voters of the Garden Grove Drainage district last week were rejected, plans for establishing a drainage system by no means are given up. The bonds were defeated with the expectation that there should be a change in the method of financing the project.

The plan now proposed to adopt a plan under which the work can be paid for on a per acre basis.

Under the plan submitted with the bonds, the cost was to be met on a basis of assessed valuation. The quarter of the district that is in the upper part of the district, under that plan, would have the heaviest burden to carry, as the land here, mostly in orchard, is assessed higher than the lower lands. That is, one-fourth of the district would be paying more than three-fourths of the district.

W. W. Weil has been asked to make an investigation into the legal end of the matter. Farm Advisor Wahlberg has written to him asking him to be present at a meeting of the Garden Grove farm center on November 29. If Weil reports that the law is now in such shape that the per acre basis of financing can be used, immediate steps will be taken for submitting bonds on that basis, and there is no question but what the bonds would carry.

If Weil reports that the law does not now provide for financing in that way, he may be asked to prepare a bill to be put through the next legislature providing for the method that seems to be desired here.

The whole drainage situation will be gone over during Weil's visit. The people in the district are convinced that drainage is advisable. There is no change of opinion on that point.

### RELATIVE OF CANTU HELD AS SLAVER

LOS ANGELES, Nov. 3.—Paul Dato, a brother-in-law of former Gov. Esteban Cantu of Lower California was arraigned before United States District Judge Trippett on the charge of violating the Mann White Slave act. He pleaded not guilty and the case was placed on the December calendar for setting.

The girl in the case, Miss Billie Palmero, conducted a cigar stand in Mexico, and it is charged that Dato not only brought her across the line for an immoral purpose, but that on one occasion he kept her a prisoner in his automobile for six hours.

### POTATO GROWERS TO ATTEND FIELD DAY

Numbers of potato growers of Orange county will attend the Potato Growers' Field Day tomorrow at Van Nuys. The meeting will be called at J. L. Olsen's place on Erwin street, about one mile east of Van Nuys at 10 a. m.

Several potato ranches will be visited where will be shown methods of planting, potato diseases, irrigation and cultivation. Experts will be present to discuss potato problems.

Luncheon will be served at noon. Orange county growers should leave at 7:30 a. m. in order to arrive at the place of demonstration on time.

### DEMAND FOR ALFALFA INCREASING WEEKLY

The market letter of the Alfalfa Growers of California, Inc., Sales Department says that the improvement in the demand for alfalfa showed further progress this week. There is practically no surplus of hay in the market, and the demand and stiffening of prices are altogether the result of more general buying for immediate wants only, made necessary by the very tight supplies in the hands of most dealers and users. This policy of the buying makes the improvement appear all the more substantial, as it promises a continued lively and healthy demand.

All receipts of hay were readily absorbed and prices improved from \$1 to \$2 per ton. Very nearly all the alfalfa is going into the hands of the dairymen.

There were received approximately 523 tons of alfalfa on the Los Angeles tracks with 70 tons left over the week ending October 30, as against 300 tons the week before.

There were 141 tons of hay of all kinds received in San Francisco the week ending October 30, as against 1347 tons the week before.

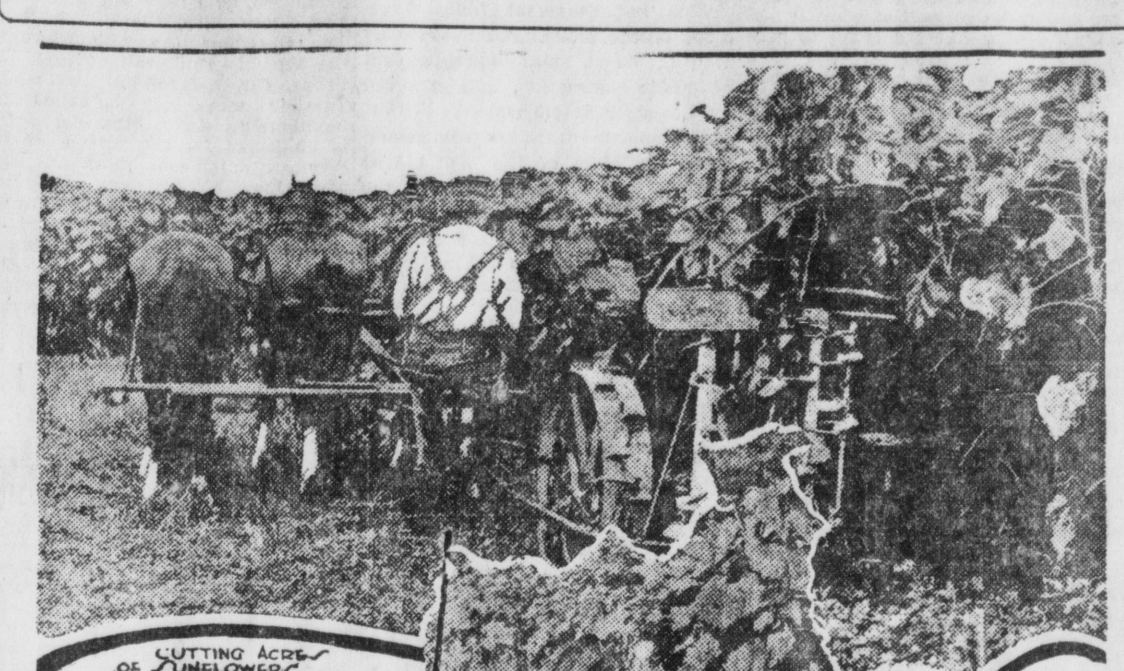

Northern prices, No. 1 dairy alfalfa, \$27; standard alfalfa, \$25; stock alfalfa, \$22.

Southern prices, rabbit alfalfa, \$37; No. 1 dairy alfalfa, \$31; standard alfalfa, \$27; stock alfalfa, \$24.

PERMIT IS GRANTED

NORWALK, Nov. 3.—Mrs. H. A. Varro, owner of the Liberty Stage Line, which operates between Los Angeles and Norwalk, has been authorized by the Railroad commission to extend her service from the town of Norwalk to the Norwalk state hospital. A. B. Watson of the Crown Stage Line opposed the granting of the permit on the ground that his company was giving adequate service. The commission, however, found that the service proposed by Mrs. Varro was needed and ordered dismissed Watson's charge that she was illegally operating.

## ALBERTA STEERS FINISHED FOR MARKET ON DIET OF SUNFLOWERS

CUTTING ACRES OF SUNFLOWERS

"For I feel just as happy as a big sunflower was the refrain of a popular song years ago. At that time the sunflower's mission was to look pretty, bow its golden head to passers-by and feed the chickens with its seeds. Nowadays the sunflower has the more important mission of finishing steers for the market in Canada's prairie provinces, Alberta, Saskatchewan and Manitoba, achieving a new incarnation in the form of roast beef and porterhouse steak."

This year from three to thirty acres of sunflowers were planted and did so well in "Sunny Alberta," particularly, that more than 1,000 acres in the Cardston district alone will be devoted to this crop next year. In this section 50 acres of sunflowers yielded from 15 to 30 tons of oilseed per acre.

Finishing cattle with sunflower ensilage was such a success last season that hundreds of silos were erected this year, giving great impetus to the growth of the dairy industry. It is anticipated that in a few years every Canadian prairie farm will have its silo, and the livestock industry will be greatly enlarged in area.

Experimenters with sunflowers in Montana have found that they are superior to corn in most respects, and in feeding value the crop has outdistanced the standard crop of corn. The comparison was made between corn, fed green, in the grazing stage, to dairy cows in the same period of lactation, and sunflower silage, and gave an increase of one and one-third pounds per day in favor of the sunflower. With corn each cow lost twenty pounds in flesh during the period of the test, but with sunflower she only lost twelve pounds. According to G. H. Hutton, B. S. A. in an address delivered before the Western Canada Irrigation Association in September, 1920, the sunflower not only adapts itself to irrigation but is a great dry land crop as well.

The second year of California's big Farm Bureau egg-laying contest at Santa Cruz started November 1, with a good sprinkling of entries from the northwestern states of Washington and Oregon.

Each hen is legbanded with her own number and owner's colors, and each hen will do her best to shell out a record-breaking lot of eggs before November 1, 1921. The hens will do their best because they are housed

### FUNERAL SERVICES HELD FOR DENTON

LOS ANGELES, Nov. 3.—A few friends accompanied Mrs. Sarah Denton, first wife of Charles Jacob Denton, and their daughter, Miss Frances Denton as they followed the body of the murdered man from the undertaking parlors to Hollywood Cemetery, where it was buried beside the grave of Mrs. Dolly Winters Denton.

A sympathizer sent to Mrs. Louise Peete in the county jail, charged with the murder of the man whose body went to its last resting place only yesterday, though the murder occurred "on or about June 2," a bouquet of Christmas berries.

With deputy district attorneys and detectives of the district attorney's office busily engaged in connecting and organizing details of the evidence in the case, the service of subpoenas for the trial began yesterday. They are made returnable November 23, the day set for the beginning of the trial before Presiding Judge Willis, and are being served by James Smith of the district attorney's office detective force. The first list of subpoenas placed in his hands are for the following witnesses:

Mrs. Mamie Tilton, Mrs. Retta Woods and Miss Ruth Woods, who were friends of Mrs. Peete; H. A. Comber, the grocer from whom Mrs. Peete ordered laundry soap and chloride of lime, and Edmund C. Atkins, who delivered these articles at the Denton house; A. N. Slavick, to whom Mrs. Tilton pawned Denton's \$800 diamond ring for \$200 by direction of Mrs. Peete; N. W. Armstrong and J. W. Crowhurst, plumbers who did work for Mrs. Peete in the Denton house after the murder; Paul August, Mrs. Paul August, Floyd Baxter, Mrs. Sarah Denton, Miss Frances Denton; Dr. Lyman B. Stookey, who has examined the stains on the floors and the rope found near the body to determine whether they were from human blood and Dr. A. F. Wagner and Dr. C. J. Webb, the autopsy surgeons.

It is understood that as the witnesses are served with subpoenas they will be cautioned not to talk about the case and instructed to report to the district attorney any attempt of others to interrogate them about the testimony that they will give in the trial.

## RAISE BUREAU'S DUES, PLAN AT MEETING SET FOR NOV. 12

Organization Needs Money With Which to Carry Out Projects, Is Word

\$4 OR \$5 YEARLY, HINT

Most Cal. Organizations Have Boosted Membership Rates

At the meeting of the directors of the Orange County Farm Bureau on November 12 a proposal will be made for raising the membership dues of the bureau.

There seems to be a strong sentiment in favor of making the dues \$4 or \$5 a year.

The following statement concerning the situation has been issued from the office of Farm Advisor Wahlberg:

"If an organization is to accomplish results on projects on which it has started, it must have sufficient financial backing to meet the necessary expenses connected therewith. The Orange County Farm Bureau is alive to the many legislative and economic problems before the farmers of the county, state and nation. It has taken up several of these problems and has assisted materially in their consideration but in more than one instance the progress of the work was hindered by lack of sufficient funds.

Must Raise Funds

"If the farmers of the land, through the Farm Bureau organization, are to put themselves on the same basis with other organizations and meet the big issues before them, they must raise funds to work with. The active committee need money for expenses, Railroad fares, attorneys' fees, stationery and postage must be paid.

The Farm Bureau has planned a number of important projects for the coming year, including water conservation, drainage, fertilizer standardization, dairy improvement, cost-testing association extension, and field demonstrations.

"The directors at their next monthly meeting, November 12, will consider the matter of increased membership dues to finance the projects for the next year."

Farm Advisor Wahlberg states that most of the county farm bureaus in the state have found it advisable to raise their membership dues for 1921.

In Berkeley it was learned that many counties have decided to set a membership of \$5 on the family basis, in which the wife has equal voice at the center meetings with the husband.

## BIDDIES OFF IN BIG RACE FOR BLUE RIBBONS

At the flashing on of electric lights by a Big Ben alarm clock at 4 a. m., November 1, the elite 600 in the Pacific coast poultry world hopped off their roosts as one to the straw below and commenced their twelve months' race for blue ribbons and medals.

The second year of California's big Farm Bureau egg-laying contest at Santa Cruz started November 1, with a good sprinkling of entries from the northwestern states of Washington and Oregon.

Each hen is legbanded with her own number and owner's colors, and each hen will do her best to shell out a record-breaking lot of eggs before November 1, 1921. The hens will do their best because they are housed

(Continued on page ten)

## EASTERN STATES NOW EMPLOY SPECIALISTS

The large agricultural states in the east employ numbers of specialists who devote their entire time to work among farmers, reported B. H. Crocheron, Director of Agricultural Extension, who has just returned from an extensive tour, studying the agricultural extension system of the most important farm states of the East.

He has informed university authorities that the present funds of the university, both from federal and state sources, are not sufficient to keep pace with the large agricultural colleges of the Middle West and East, and that California farmers are not receiving the service which other states have found profitable and wise.

He stated that throughout the corn belt state universities employ large numbers of men as subject matter specialists to assist the county farm advisors, but that the limited funds now available in California make any such development of work here impossible.

Let us clean your rugs by our wonderful New Process. We do not injure the sizing. Call Shaw's Cleaning and Dye Works. 317 West 4th, St. Phone 137.

## ANNOUNCEMENT

—OF—

## Detroit Jewel Gas Stoves and Ranges

In accordance with our earnest endeavor to give our customers a better article for their money, thereby making them satisfied customers and boosters for us, we are pleased to announce that we are now agents for the famous DETROIT JEWEL GAS STOVES and RANGES.

The DETROIT JEWEL STOVE has all the modern up-to-the-minute improvements, that are so much desired and appreciated by the proud housewife in her keen desire to make her kitchen one among the best.

The DETROIT JEWEL STOVE with its many features, such as Pyrex glass oven doors, porcelain enameled drip pans and splashers, double wall construction with removable oven linings, cast iron drilled star burners, and numerous other improvements, that go to make up a high grade gas stove.

Practically all DETROIT JEWEL STOVES are finished in what is termed Ebonite—a rich black finish that is baked on at an enormous temperature, which enables it to resist hard impacts without chipping, and is impervious to water or oils, making it easy to keep clean, and adds wonderfully to the attractiveness of the stove.

We are showing this complete line of high quality gas stoves and ranges, and you will find here just the stove you desire, no matter how large or small is your kitchen.

In introducing the DETROIT JEWEL GAS STOVE to our trade, we are going to offer this high grade stove at a price lower than you have to pay for a much inferior grade of stove. Come in and let us show and explain this truly perfect stove, and forever put an end to your stove troubles.

# CAFE MANAGER HAS GAINED 18 POUNDS

**Los Angeles Business Man Says Tanlac Put Him Back On His Feet and He Now Enjoys Fine Health.**

"In less than a month's time Tanlac has restored my health and built me up to where I have actually gained eighteen pounds in weight," declared B. Frank Hill, manager of a popular cafe at 319 West 6th street, Los Angeles, Cal.

"Several times during the past year," explained Mr. Hill, "I had to neglect my business on account of bad health following an attack of influenza. I lost my appetite and my stomach was in such a bad fix that what little I did eat seemed to do me more harm than good. I was constipated all the time and suffered terribly with gas on my stomach. This condition pulled me down until I only weighed one hundred and fifteen pounds and was so weak

and felt so bad that I had to give up work. I tried all kinds of medicines; but nothing helped me and I was mighty downhearted and discouraged.

"A friend advised me to try Tanlac and spoke so well of what it had done for him that I decided to give it a trial. I started on part of a bottle that he gave me, and I commenced to improve before I finished it. My appetite picked right up and I felt so much better that I bought another bottle.

"Pretty soon I was able to eat anything I wanted without having one bit of trouble with my stomach. I am now back at work, and my gain in weight and strength is simply remarkable for I tip the scales at one hundred and thirty-three pounds and just feel fine all the time. The way Tanlac built me up was the surprise of my life and it will always get a good recommendation from me."

Tanlac is sold in Santa Ana by Rowley Drug Co., Heying Pharmacy, Anaheim, and the leading druggists in every town.

## CITY'S SCHOOLS WILL CLOSE ON NOVEMBER 11

J. A. Cranston, city superintendent of schools, today announced that Santa Ana public schools would be closed on Armistice Day, Thursday, November 11.

This announcement followed receipt of the proclamation issued by Will C. Wood, state superintendent of public instruction, and endorsed by Governor Stephens.

Appropriate exercises commemorating the close of the World War will be held in the schools of the city. History classes will participate especially in the exercises, and will study the events leading up to the great war and those which led up to the final signing of the armistice. The exercises will be held on Wednesday, the day before Armistice Day.

## BOYS' GLEE CLUB BEING ORGANIZED

Final selection of members of the Boys' Glee club of the high school will be made soon, according to announcement today by Miss L. C. Shephard. Approximately 18 or 19 boys will be included in the club and most of these have already been selected. The few vacancies left will probably be filled by the last of the week or the first of next week, Miss Shephard said.

Plans for the season for the Boys' Glee club include a possible pageant or operetta and a number of smaller concerts. At least one full evening of music is promised. The boys will probably appear in the high school assembly exercises from time to time.

The Girls' Glee club, which has been organized for some time, is expected to make its appearance soon in an assembly concert and probably in a more extended concert a little later.

The Junior College Glee club is scheduled to make its first appearance before the Junior college assembly in the music room of the high school tomorrow. This organization is absolutely new and the Junior college people are anxiously awaiting its initial appearance.

The high school orchestra will also make its initial appearance tomorrow, in the high school assembly exercises in the Yost theater. The principal part of the assembly exercises will be furnished by the orchestra.

**MEX. BANDIT JAILED**  
MEXICO CITY, Nov. 3.—Said to be the last of Mexico's bandit chiefs, Pedro Zamora, whose operations in Jalisco and Colima have prevented development in that section, was a prisoner in the federal jail here. Fifteen of Zamora's followers followed their chief in his surrender.

**STEAMER LOSES PROPELLER**  
SAN FRANCISCO, Nov. 3.—The steamer Governor, which arrived here from Seattle ten hours late, lost her starboard propeller Sunday night in striking a log off Cape Blanco.

**SPEECH RECOVERY FATAL**  
JUNEAU, Alaska, Nov. 3.—Mrs. Sam Jackson of Sitka, dumb for many years, recovered her speech and died. It is believed the shock of recovering her voice brought about her death.

## MRS. RUTHERFORD IS NAMED CHAIRMAN OF RED CROSS CHAPTER

This morning Mrs. Susie Rutherford was elected chairman of Santa Ana chapter, American Red Cross, for the coming year. Mrs. A. J. Crookshank was elected vice-president; Mrs. Carrie N. Leebick, secretary, and Harry L. Hanson, treasurer.

The election was held at the office of the secretary, Mrs. Leebick, on East Third street. Mrs. Rutherford succeeds Dr. John Wehrly.

The directors of the chapter met this morning with Miss Clark of San Francisco, field representative of the Red Cross. Mrs. Clark is in Santa Ana in connection with plans for the annual roll call of the Red Cross. For that roll call, which, by another name, may be called the membership drive, Mrs. Rutherford is chairman for the portion of the territory outside of Santa Ana, and Mrs. John N. Anderson and Mrs. Arthur H. Lyon are chairmen for the city. The city is to be preselected for the drive. Anyone who is willing to give a day or two to the necessary work of canvassing should telephone to Mrs. Anderson, or Mrs. Lyon at once.

## ROTARIANS KEEP UP ATTENDANCE MARK

With a record of three consecutive one-hundred-per-cent-attendance meetings, the local Rotary club again set a high mark in the international contest, according to report of President Mac Robbins at this week's meeting at the James' cafe. During the month of September there were just seven clubs in the world showing a higher per cent of attendance. For the month of October the local club expects to climb even higher in the list.

In a meeting yesterday, following the usual singing and good fellowship demonstration, a report was presented by the president from the recent district conference held in Fresno. The report covered practically every activity in which Rotary is engaged and was followed by many remarks of appreciation from the local membership.

On next Tuesday the program is to be arranged and presented by Rotarians John McFadden, Charles Brown and John Tubbs.

## TO QUELL INVADERS WAS ORIGINAL IDEA

Lafayette square, in Washington, like the circles, triangles and other squares of the city, is under the jurisdiction of the army. An officer of the corps of engineers, with the rank of Colonel, is at the head of the bureau in the army which has charge of it and of all the other little parks. He is known as the superintendent of public buildings and grounds, but that is a misnomer, because there are a number of buildings and grounds he doesn't have anything to do with. He does run some of them, however, and he exclusively runs the little parks. The reason for his existence is one of the charming contradictions of the capital.

When General Washington and Major L'Enfant (the father of the great French architect), made the plans for and laid out the District of Columbia, they were possessed of determination (quite tenacious then) that the time must never come when the populace could rise up and overthrow the Government, so they designed a city which physically, would be easy for the Government to hold against the people. First, they made the city run diagonally, from corner to corner of the district. Where these avenues, which subsequently were named after the states of the Union, intersected with each other circles or squares were laid out. The little areas thus created were turned over to the army for military reasons, and if you examine a map of Washington today, you will find ten of these circles in which you could set up the whole of the district. No populace could overthrow you, because you would command practically all approaches. Long ago the army administration of these spots became exclusively esthetic in character, and today the War Department maintains a bureau of parks to beautify and police these military strongholds.

Taylor's Fireproof Warehouse for general storage, 1028 E. Fourth St. Phone 1488.

## SANTA ANANS TO TAKE PART IN ANAHEIM ARMISTICE DAY PARADE

Santa Anans, riding in decorated automobiles, will take part in the Armistice Day celebration to be held at Anaheim on the morning of November 11.

A decision to that effect was reached last night at a meeting of Santa Ana's citizen committee named to co-operate with the American Legion in celebrating Armistice Day.

The committee met at the Chamber of Commerce room. It was organized by the election of Clyde Bishop as chairman and Fred Chapman as secretary.

It was arranged that every citizen who desired to do so may enter in the parade at Anaheim. The Santa Ana delegation will start from Santa Ana at 9 o'clock. The parade starts at 10 o'clock.

Santa Ana's Armistice Day celebration will take place in the afternoon of Armistice Day, at Birch Park.

## BIDDIES OFF IN RACE FOR RIBBONS

(Continued from page nine)

in beautiful new quarters, built according to latest scientific discoveries for a hen's comfort, as designed by the poultry division of the University of California. The building is situated on one of Santa Cruz's choicest spots, sheltered from winds but open to the sun and invigorating sea air.

The hens will be fed only the best of egg-making foods, as directed by the poultry division, and the manner of feeding will be that which has been found best by experiment stations and practical poultrymen the nation over.

## FEED ROUGHAGE AND SILAGE IS URGED

(Continued from page nine)

ing supplies, distances from markets, overhead expense, etc. The feed is the largest single item in the cost of producing milk, making up from 50 per cent to 75 per cent of the total cost, and a careful consideration of ways and means of keeping down the feed cost is therefore a most important factor in successful dairying, especially under present-day prices of feed, labor and supplies.

## ANTS CLUSTER IN BALL AND TRAVEL

Noah built an ark for himself and his family when the floods came, and the Argentine ants do something quite as effective and a great deal more unique when they invade their home. They cluster together and form a compact ball, which floats along the top of the water until it comes in contact with a secure resting place. That found, the co-operative spirit disappears, and each again becomes an individual looking out for "number one" first and always. In forming a ball the ants in immature stages cluster in the center of the mass, while the queens and workers form the outer portion. As the ball enlarges by the addition of other workers that have been struggling alone in the water, it gradually revolves. During its voyage on the water it keeps revolving slowly by the outside workers striving continually to reach the top of the ball. This permits air to reach the interior.

The ball method of traveling is only one of the many ways by which the Argentine ant gains new territory. From Texas to the Atlantic, throughout the South, this pest has now established itself, to the injury of the nurseryman, the trucker, and the orange grower.

Farmers' Bulletin 1101, recently issued by the United States Department of Agriculture, gives methods of controlling the Argentine ant found to be effective. Where the infestation has reached proportions of any size, municipal control measures are recommended. The best and most effective of these is the use of tin-can containers for ant-poison syrups. As the ants prefer to climb for their food, these cans are hung near ant trails going up trees and walls. The syrup attracts and at the same time destroys the pest.

**LANDLORDS—BEWARE!**  
MEDFORD, Mass., Nov. 3.—As proper punishment for profiteering landlords a six months' jail sentence and \$100 fine were advocated for those found guilty of unfair dealings with tenants by Wilbur Drow, president of the Medford Hillside and South Medford Tenants' league, at a meeting of that organization.

**DISCHARGE 1,000 MEN**  
PHILADELPHIA, Nov. 3.—The Philadelphia & Reading Railroad announced it had reduced its working force approximately 1,000 men and that all employees were put on an eight-hour basis.

**STREET CLEANERS STRIKE**  
BOMBAY, India, Nov. 3.—Thousands of street cleaners of Bombay have gone on strike for higher wages and shorter hours. At present a street cleaner receives Rs. 18 (\$6) a month. They are demanding Rs. 25 (\$8.33). They are also demanding one day's leave with pay beside Sundays, and full pay for the period of strike.

**BIG TUNISIAN DATE CROP**  
WASHINGTON, Nov. 3.—The date crop for Tunis for the present year is 43,600,000 kilos, according to figures furnished the department of commerce by the Tunisian government. For 1919 the crop was 35,000,000 and for 1918 40,000,000.

## TEXCAL ADJOINS STANDARD

In rapid succession, Standard Oil has brought in giant gushers in the Huntington Beach field. Result—they are rapidly extending their development, and locating new wells in the most favorable locations.

And Standard has picked the site for their No. 5 well directly across the road from Texcal's rig, which is now drilling!

## Our drilling speed means quick returns.

Standard required but 3 weeks to reach production on their 1000 barrel gusher near Texcal's well. We expect to equal their record. There is no reason why our well cannot be brought in on December 15th—or sooner.

This means quick action on your investment, for profits from our first well will be largely devoted to the immediate payment of dividends.

## Texcal Already Fully Financed

Texcal is not selling stock to finance its first well, or its second. Sufficient funds are on hand to complete the first well, and with ordinary good fortune the second, without the raising of additional capital. The purpose of the present issue is to provide for the immediate undertaking of an extensive campaign of development, on PROVEN GROUND.

Our activities are such that stock is moving rapidly. You must make prompt action your course if you are to share in Texcal's profits.

Reserve stock NOW. The coupon offers the most convenient method of being certain that you will be able to get YOUR block of Texcal stock, at par value, \$1.00 per share.

"They WORK while you sleep"

Do you feel bilious, constipated, headachy, upset, full of cold? Take one of two Cascarets tonight for your liver and bowels. Wake up with clear, stomach right, breath sweet and feeling fine. No griping, no inconvenience. Children love Cascarets, too. 10, 25, 50 cents.—Adv.

## Safe Fat Reduction

Reduce, reduce, reduce. Is the slogan of all fat people. Get thin, be slim, be the envy of society and fashion. The overfat wring their hands in mortification and helplessness; revolting at nauseating druggists, afraid of violent exercise, dreading the unrelenting and unsatisfying diet, until they hit upon the harmless Marmola Tablets which quickly and safely reduce weight at the rate of two, three or four pounds a week without any change in the mode of life. The ideal figure is soon obtained, with a smoother skin and a better appetite and health improved. Marmola Tablets contain all the ingredients which made the Marmola Prescription famous. It behooves you to learn the satisfactory, beneficial effects of this great, safe fat-reducing agent by giving to your druggist the reasonable price, one dollar, for a good size box or sending a like amount to the Marmola Co., 55 Garfield Building, Detroit, Mich., with a request that they mail to you a full box of Marmola Prescription Tablets.

## Miss H. Bearcroft Tells How Cuticura Healed Eruptions

"When I was a child I was bothered with a sore eruption on my head. It was as large as a quarter and had a scale on it, and every time I ran the comb through my hair it would about set me crazy. At times it would burn something fierce and caused me much pain. I was also bothered with pimples and blackheads on my face. The pimples would fester and burn, making me very uncomfortable."

"I began using Cuticura Soap and Ointment and after a little the burning almost immediately stopped. When I had used the Cuticura Soap and Ointment for a week I was healed." (Signed) Miss Harriette Bearcroft, 928 W. Sixth St., Los Angeles, Calif.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations and watch your skin improve.

Sample Book Free by Mail. Address: "Cuticura Laboratories, Dept. B, P.O. Box 40, Boston, Mass." Send every-thing. Soap, Ointment 25 and 50c. Talcum 25c. Cuticura Soap shows without water.

# Joy Reigns At Home Of Harding's Sister

## MRS. REMSBERG HOPING SENATOR HARDING AND HIS FATHER WILL VISIT SANTA ANA THIS WINTER

Elation reigned at the home of Mrs. E. E. Remsberg, sister of Senator Harding, last night. No home in all America took greater joy in hearing the returns than did that at 1701 North Main street.

"We are pleased beyond expression over the result of the election," said the sister of the President-elect. "It was a greater landslide than we had expected, though at no time did we have any doubt as to the outcome."

"It is indeed a very great honor that has come to my brother. I am certain that he is worthy of the honor. I feel that the tremendous responsibility that will be placed upon him is almost overwhelming, but I feel that he is equal to whatever responsibility that may come to him."

Mrs. Remsberg said today that she hopes that Senator Harding and his father will visit in Santa Ana this winter. Mr. and Mrs. Remsberg hope to be able to attend the inauguration on March 4.

Holds Cox Speech Mistake  
"Personally, I feel that Governor Cox hurt himself greatly by his last speech."

Miss Nelle Marie Remsberg, a daughter of Mr. and Mrs. E. E. Remsberg, a teacher in Santa Ana high school now on leave of absence, was one of those who gathered last evening at the home of Senator Harding in Marion, O., where Miss Remsberg is visiting.

Mrs. Frances Wyant of Sawtelle, a sister of Senator Harding's father, visited from Sunday until yesterday afternoon at the Remsberg home here. She wanted to remain here for the gathering at the Remsberg home last evening, but she would not miss voting for her nephew. She returned to Sawtelle to vote.

Among those with Mr. and Mrs. Remsberg and their daughter, Miss Katherine Remsberg, last evening, were Mr. and Mrs. Oliver Remsberg, Mr. and Mrs. Samuel Eaton, who are old friends of Mrs. Volaw, a sister of Mrs. Remsberg, Miss Blackburn, Mr. and Mrs. Barrows, and Charles

Shaffer. Among those who called to offer their congratulations to Mrs. Remsberg were Mrs. Frank True and Mrs. J. P. Baumgartner.

May Be At Inauguration  
"We hope to be able to attend the inauguration in March," said Mr. Remsberg this morning. "So far, however, we have made no definite plans."

"We are highly pleased over the fact that Senator Harding was elected as the result of a clean campaign. It was the kind of a campaign that we expected of him, for we know him to be a square fighter."

Mrs. Remsberg said that she hopes that her brother and father will visit in them some time between now and March.

A letter urging the visit will be sent at once. For several winters now Mrs. Remsberg has been urging her father to come to California for a visit, but first one thing and then another has caused a postponement. Mrs. Remsberg thinks it possible that the journey will be made this winter.

"Did any member of your family forget to vote yesterday?" was asked of Mrs. Remsberg.

"I should say not," said Mrs. Remsberg laughing.

## SEEDS OFFERED FOR EXPERIMENT IN COUNTY

The following varieties of grain seed may be obtained from the University Farm at Davis through the Orange county Farm Bureau office. Farm Advisor Wahlberg has received word from Davis that certain quantities of seed may be obtained for Orange county planters for observation purposes. He would like to see a number of acres of each tried here. Orders may be placed at the farm bureau office in Santa Ana.

Mariout Barley averaging 110 pounds per sack, 4 1-2 cents per pound, f. o. b. Davis. This is field run seed containing a small percentage of common barley, but is pure, the most of the seed in circulation at this time. Our absolutely pure Mariout seed will not be ready for distribution until next season. Mariout is adapted to dry soils and is better able to withstand the late winter and spring seedling than common barley. It should not be sown on heavy, wet, poorly drained soils, nor in the cooler coast and mountainous districts.

Tennessee Winter Barley, averaging 104 pounds per sack, cleaned, 4 1-2 cents per lb., f. o. b. Davis. Tennessee Winter Barley is better than common barley on heavy, adobe soils, and is better able to withstand cold, wet, poorly drained soils. It should be planted before December 15, to secure the best results. It should not be grown on light, sandy soils, nor in the drier portions of the state.

Four Thousand Barley, averaging 106 pounds per sack, at 5 1-2 cents per pound, f. o. b. Davis. Four Thousand barley is a pedigreed strain of common barley and has outyielded common barley in experiments at the university farm for a period of six years. It will outyield common barley under any condition by ten per cent, but is inferior to Mariout under extremely dry conditions, and to Tennessee Winter under extremely wet conditions.

Bunyip Wheat, averaging 137 pounds per sack, at 4 cents per pound f. o. b. Davis. This seed is clean, heavy, true to name, and of good quality, but contains traces of smut, and should be dipped in bluestone prior to planting. Bunyip is an early maturing, beardless wheat, with a stiff straw and high milling quality. It is considerably earlier than Club or White Australian, and ripens slightly in advance of Baart or Sonora. It has been a high yielder in the Sacramento and San Joaquin valleys, in the dry seasons. Its stiffness of straw is also a considerable advantage to it on rich soils well supplied with moisture when fall planting is practiced.

Field Claimed Proven  
Beyond a doubt would seem to be indicated by the fact that the Interstate, which is an old established company, is putting down four rotary rigs in the district. It is said the Standard Oil company got its information for the Huntington Beach wells from a test hole on the Irvine lease and the Interstate is now seeking similar knowledge of the Mesa lease.

The Newport No. 1 well of the Interstate company is said to be drilling in blue shale. The exact depth is not given but is understood to be more than 2500 feet. Gas indications and considerable oil have also been observed in the hole, according to reports.

The so called "mystery well" on the flats between Newport and the bluffs is going down rapidly with a six inch rotary. This well is said to be owned and operated by a family, of which the father and five sons are doing the drilling themselves. A 75-foot steel tower has been erected and precautionary measures taken to assure quick control of the well if it comes in with a rush, as it is said to promise to do. Heavy gas pressure has been encountered and favorable stratas of oil sand have been gone through. The operators of this well are very hopeful of its rapid completion as a big producer.

Many of those interested in the Mesa district a wonderful future both as to oil production and as to agriculture. Situated between the harbor and Santa Ana, the district undoubtedly has a wonderful future as a commercial section.

U. S. COLONY FOR BRAZIL  
RIO DE JANEIRO, Nov. 3.—A North American colony of 500 families is to be established in the state of Mato Grosso, Brazil, where about 2,500,000 acres have been acquired by a United States syndicate.

Chronic squeaking in the braking system is generally due to dirt that has been imbedded in the lining and pressed against the drum when the brakes are operated. Usually the dirt may be washed out with kerosene, but if it is so firmly imbedded that it refuses to come out with this treatment a little rosin mixed with castor oil and applied to the bands will cure the trouble.

WATER RIGHTS ATTACKED  
EL CENTRO, Nov. 3.—The right of El Centro to construct a siphon under Orange street to accommodate the waters of the Dale Canal has been questioned by Mutual Water company No. 1. City Trustee C. E. Pitzer and Engineer P. W. Knights will attend a meeting of the directors of No. 1 on November 8 to adjust the matter.

INDIAN, 106, PAYS TAXES  
SANTA BARBARA, Nov. 3.—Mrs. Louise Ygnacia is believed to be the oldest taxpayer in the County of Santa Barbara, whether woman or man. She is 106 years old, and today paid her taxes at the county collector's office. She was born October 26, 1814. She is of pure Indian stock and is said to be one of the few Indians remaining who can speak the ancient language of the tribe that once populated Goleta Valley.

## GOVERNMENT REFUSES TO HIRE NEW GUARDS

SAN FRANCISCO, Nov. 3.—The request of J. O. Davis, Collector of Customs, for twenty extra customs guards to prevent smuggling of liquor and opium has been refused by the Treasury Department. Some time ago Davis made this request. Last month he sent an urgent telegram to Washington, asking that the request be granted at once. Yesterday an answer came, stating that it would have to be denied, as Congress had made no appropriations to pay the extra help. Davis now declares it will not be his fault if smuggling increases.

MARRIES TITLED BRITON  
LONDON, Nov. 3.—Lord Alastair Robert Innesker and Jose Collins, a comedy actress, were married privately in London last week-end, according to an announcement received here.

## SALVATION ARMY IN COLONIZATION PLAN

SAN FRANCISCO, Nov. 3.—Indications that The Salvation Army may shortly launch one or more large colonization schemes is, indicated in orders received by Brigadier Charles W. Bourne at western territorial headquarters here, delaying his return overseas as director of The Army's work with the American forces in Germany.

Although no official confirmation of this has been received here, it is known that the international headquarters has under consideration several large colonization projects submitted by noted philanthropists. One, it is said, involves a large area of the West Indies, and another in South Africa.

This work is in line with the back-to-the-land movement which The Army has been fostering for years through the medium of its industrial homes and employment bureaus. The object of this larger undertaking will be to relieve the overcrowded conditions existing in the metropolitan centers, especially in the Old World.

Brigadier Bourne, because of his work in the establishment of The Army's home for boys and girls at Lytton and more recently in directing this organization's work with the American forces in Germany has won wide recognition. He is looked upon as being one especially fitted for one of these large colonization projects.

In connection with his work over-

seas in establishing club houses and visitation work among men in prisons and hospitals, Bourne last winter organized a nation-wide relief of German children, a work that was financed through a public appeal to the English public.

over-

## CAR IN DITCH ROBBED; WRECKERS SUSPECTED

SAN JOSE, Nov. 3.—Swerving his car suddenly to avoid running over an auto tire in the middle of the Oakland highway near Milpitas last night, J. O. Fields of Niles crashed over an embankment, the auto upsetting. Fields was not injured. Seeing lights some distance away, he went for help, returning within fifteen minutes. On his return he found that the auto had been stripped of everything removable, including one tire, two headlights, looking glass and seat cushions. The sheriff here believes the tire was placed on the roadway by robbers.

GOING TO CONFERENCE.  
RENO, Nev., Nov. 3.—Miss Margaret Barnes and Miss Evelyn Walker will represent the Women's League of the University of Nevada at an intercollegiate women's league conference to be held at the University of Washington on November 13 and 14.

SLEEPS THROUGH ROBBERY  
RIDGEFORD PARK, N. J., Nov. 3.—Thieves broke into the rectory of St. Francis church and robbed the pastor, Rev. James McDonald, of \$50 and several trinkets he had in his room. The pastor did not discover the robbery until he awoke.

seas in establishing club houses and visitation work among men in prisons and hospitals, Bourne last winter organized a nation-wide relief of German children, a work that was financed through a public appeal to the English public.

## LEGION PLANNING 'DEAD MEN'S CLUB'

INDIANAPOLIS, Nov. 3.—Agitation continues for the formation of a "Dead Men's Club," to be composed of ex-service men, who were reported dead by the war department and who have risen from the "dead" into the walks of every-day life. The following letter of inquiry was received recently at Legion national headquarters in this city, from Geo. D. Dickson, of New York:

"I beg to state the following facts which I think will prove to you that I am eligible to be a member, and for further proof, I think that my own death certificate from Washington would end any doubt. I have two telegrams from Washington to my mother confirming my death. A cablegram states that I was wounded September 29, 1918, which was the case, but then they followed it up with another one saying that I had died from my wounds October 9, which I can assure you is not true. The insurance papers were forwarded to my mother for signature, but she failed to sign, believing me alive. Two telegrams from Washington then came confirming my death."

Dickson is holding a very "alive" job with a Manhattan printing company.

Razor blades sharpened at the Crown Stage Depot are all hair tested. No guess work about their cutting.

More tenants are now seeking farm lands than can be taken care of by the available farms, reports to the College of Agriculture of the University of California indicate.

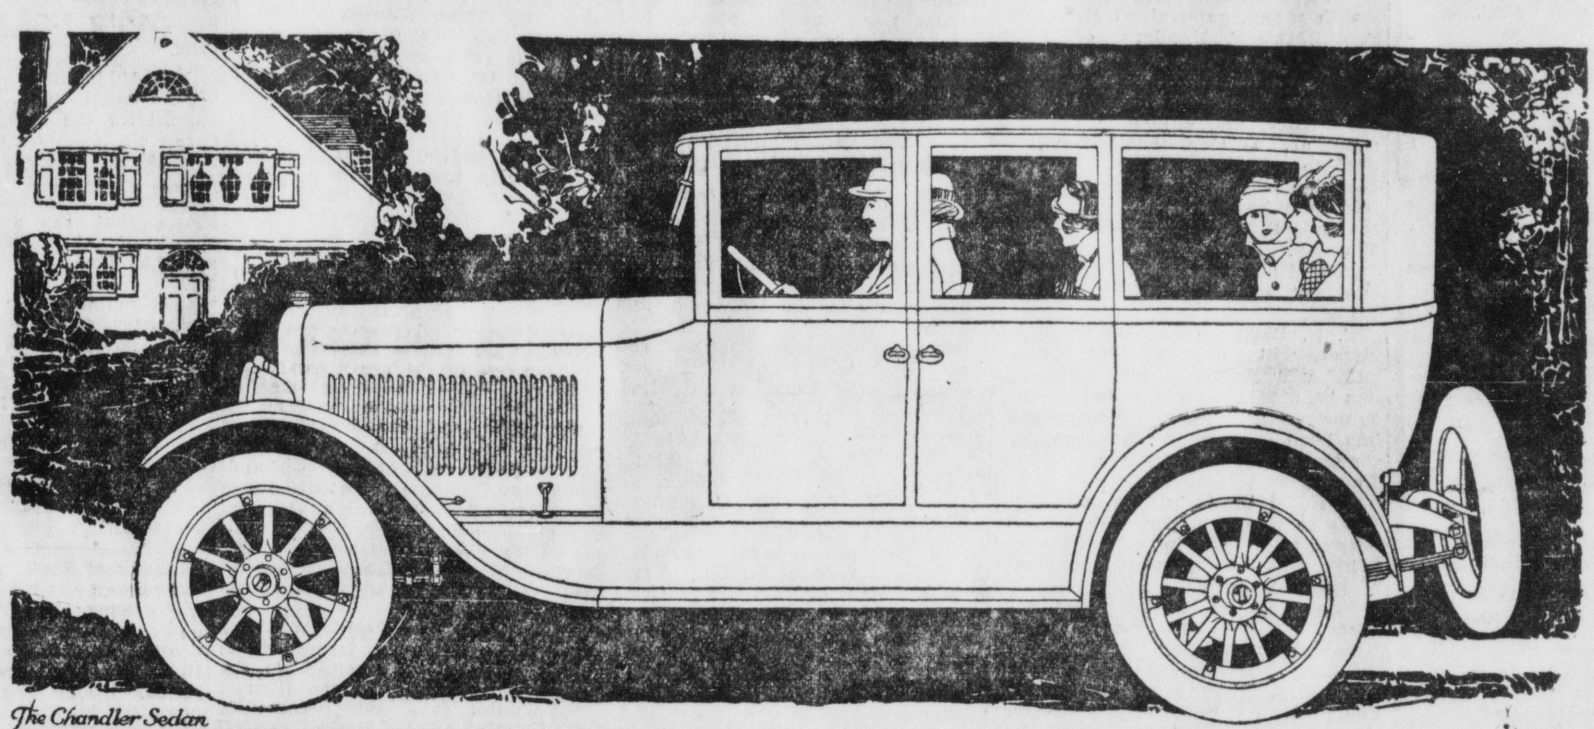

Poultry farms are especially hard to obtain. Fruitmen always have been slow to lease their orchards. Many renters are paying one-third of the gross output for grain land; one-quarter of the crop for sugar beets, beans, and potatoes; as high as \$40 per acre cash rent for alfalfa, cotton and certain truck lands. Even at these comparatively high prices the profits have been sufficient to date to stimulate a demand in excess of the supply.

"While tenancy of farm lands has its objectionable features," it was pointed out today by Dean Walter Mulford, "it does provide an opportunity for the qualified farmer to get into farming for himself with a minimum of capital, thereby making it possible to get a start which might never come if purchase were the only means."

"Renting is a good thing, too, for the young man learning to farm; for the newcomer into the state who is unfamiliar with California conditions; for the progressive land purchaser whose decision should rest on judgment based on rather extensive knowledge of California farm lands. The tenants of today are, in many cases, the farmers and land owners of tomorrow."

# CHANDLER SIX

Famous For Its Marvelous Motor

## Maximum of Comfort with Rare Beauty and Real Mechanical Excellence

Chandler closed cars, the big handsome sedan and the equally splendid coupe, appeal to discriminating men and women seeking the most comfortable means of transportation for their daily requirements in any season and any weather, coupled with assured mechanical excellence. They are first preferred cars among such buyers.

Substantial and durable in their splendid construction, most pleasing in design, lustrous in finish, deep cushioned and attractively upholstered in silk plush, they bring to you all that you could desire. They

are free from objectionable outside door hinges and mouldings that mar.

The Chandler Sedan seats seven in real comfort when the spring-cushioned auxiliary chairs are in use. The Coupe seats four in equal comfort.

Chandler closed car bodies are mounted on the one standard Chandler chassis, now in its eighth year of constant development and refinement and featured and favored for its marvelous motor.

These closed car bodies compare favorably with the similar bodies of the most costly cars.

## The New Chandler Price Eliminates Competition

For years the Chandler has held the lead for real quality at the fairest price. The new Chandler price puts it in a position of being without competition. Any other car which may be compared with the Chandler is priced at hundreds of dollars more. And some smaller cars which give you much less are priced but little lower. Chandler is the real first choice in the motor car field today. These are facts, easily proven.

## A RAW, SORE THROAT

Heals Quickly When You Apply a Little Musherole. And Musherole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain. Musherole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds on the chest. Nothing like Musherole for croupy children. Keep it handy for instant use.

## MUSHEROLE

WILL NOT BLISTER

# News from Orange County Towns

## WOMAN'S CLUB HAS ENJOYABLE MEETING

HUNTINGTON BEACH, Nov. 3.—There was a very interesting and enjoyable meeting of the Woman's Club at their club house on Tenth street last Tuesday afternoon. The afternoon was most delightfully spent in listening to a splendid musical program rendered by Mrs. H. M. Sammis and Louise Montgomery of Santa Ana. Songs of American composers were given in a clear, sweet voice by Mrs. Sammis, accompanied by Miss Armstrong. The club house had been very prettily decorated for the occasion with large red and yellow dahlias. Light refreshments were served by the hostesses, Mrs. H. T. Dunning and Mrs. Richard Drew.

Mrs. Jesse Smith entertained a company of eight ladies Thursday afternoon at her home on Tenth street. The time was pleasantly spent playing Five Hundred.

The instructors of the Huntington Beach Grammar school entertained the faculty of the Huntington Beach High school at a Halloween party in the Grammar school building. On entering one was greeted with walls and groans from creatures in ghostly array. On the darkened stairway leading to the auditorium were spooks walking to and fro and peeping from the dark openings. Beyond were Jack-o'-lanterns with glowing eyes and devouring mouths. Walking down the dimly lighted hall one could see fighting black cats, owls that seemed to hoot, and all creatures that are supposed to be abroad on the Eve of All Saints. In the kindergarten room, spooky games were played and delicious home-made refreshments were served; pumpkin pies and doughnuts like mother used to make.

Mr. and Mrs. Harry Bowman, Seventeenth street, entertained the members of the Young Married People's class of the Methodist church at a Halloween frolic at their home on Tuesday evening.

Mr. and Mrs. J. Proctor, 242 Fourteenth street, entertained Mrs. Tilla Scott, Mrs. F. Manders of Long Beach, Mr. and Mrs. Walter Thomas of Los Angeles on Sunday.

Mr. George Bentley returned Sunday from an enjoyable vacation spent at Oak Glen in the San Bernardino mountains.

Mr. and Mrs. M. A. McCreery have sold their home on Thirteenth street to Louis Bingle and expect to move Tuesday.

Mrs. Horne, Eighth street, spent the past week with friends in Hollywood.

C. H. Bickmore and family, Sixth street, will move to Chino, where they will reside. Mr. Bickmore has been field superintendent for the American Beet Sugar Company and has been promoted to field superintendent of all territory south of Los Angeles.

J. Ed. Huston, brother of Dr. W. Huston, realty dealer, has sold his home in Winfield, Iowa, Wednesday. While here, Mr. Huston made several investments.

The Chamber of Commerce met last Monday in the rooms in the basement of the Public Library. The question of better Pacific Electric car service was taken up and a committee of three were appointed to have a personal interview with the officials. The members of the committee appointed were Murray Horne, M. G. Jones and H. Larter. J. K. McDonald, secretary of the Fair Association, reported the receipts of the Orange County Fair to be about \$7500. Delegates from the Santa Ana Boy Scouts were present and urged that the Boy Scouts reorganize. Later, Santa Ana boy scouts will give an entertainment here in this city.

The City Trustees met Monday night. The matter of boundary of the oil well district was decided upon, extending from First to Twenty-third street east and west; from the tide line to Wesley Avenue, north and south.

A Halloween party was given by the Rebekah lodge at the Odd Fellows Hall. Coming up the stairs one was ushered through a tunnel of canvas. Now and then ghosts were seen and heard and the "goblins" would get you if you didn't watch out. At the end of the tunnel one in ghostly garb gave an icy hand shake and left bits of white paper on face and hands. The lodge room was beautiful, decorated with cornstalks, cat tails and brown-eyed daisies. Flying about were black bats, owls, and all spooky creatures that hold sway on a night like this. Games of a Halloween nature, music and recitations were enjoyed by all who attended. On leaving this room to go to the dining room the guests were given masks to wear during the supper hour. Long tables laden with Halloween goodies greeted the guests. Small favors were given each.

Leo Laverling, son of Mr. and Mrs. C. E. Laverling left Sunday for the Hawaiian Islands, where he will be employed as chemist for the Great Western Refining Company.

Mr. and Mrs. Alfred Schrosbee, Ocean Avenue, returned Friday from a visit to their old home, Hastings, Nebraska. They experienced all kinds of Eastern weather and are glad to be back in sunny California. Miss Louise Miles returned with them and will be their guest during the winter months.

November eleventh, Armistice day, will be observed here with exercises in keeping with the day.

T. C. Herman passed away at the home of his nephew, T. H. Bastian, near the Holly sugar factory.

Mrs. F. Marsh of Glendale, was a visitor last week at the home of Mr. and Mrs. Rose, 809 Walnut avenue.

Mr. and Mrs. G. O. Nichols, 609 Eighth street, are spending a few weeks at their ranch near Orange, gathering their walnut crop.

Howard Finney of Los Angeles, was a guest of his grandparents, Mr. and Mrs. William Robinson, Ninth street.

Miss Bertha Proctor and Myrtle

## HOUSE BUILT IN ONE DAY BY ANAHEIM ELKS

ANAHEIM, Nov. 3.—There was a woman in Anaheim today who was supremely happy. Saturday the only home she had was a tent—a canvas shelter that was little protection against rain and wind and the chill of autumn nights. She is alone in the world with three small children. She supports them by washing and she hasn't even had the proper equipment for that.

Today the family was snugly settled in a cozy little house and in the yard was enough wood, split to the proper size, to last all winter. The house that Jack built could not have sprung up more miraculously.

The house was built in a day—in less than a day, in fact. Yesterday morning at 9 o'clock some 75 or more members of the Anaheim Elks' lodge gathered in the rear of the city pumping plant on South Los Angeles street, armed with hammers and saws and ready for work.

At 12:30, just three hours and 20 minutes later, the little family had moved into its new home. The house was all finished and neatly painted, an outdoor furnace for heating wash water had been built, and a winter's supply of wood was neatly piled up near by.

## WELL KNOWN TUSTIN COUPLE WED SUNDAY

TUSTIN, Nov. 3.—Sydney Scott Prather and Effie Alberta Kuykendall were married at the Presbyterian church Sunday at 8:30 a. m. by Rev. McDougall. Only the immediate relatives of the couple were present at the ceremony, after which Mr. and Mrs. Prather left for Honolulua, followed by the best wishes of the entire community.

Miss Sheets gave a Halloween party Saturday afternoon to her S. S. class in which games and refreshments appropriate for the occasion figured prominently.

The Ladies' Aid Society will meet at the home of Mrs. Leahy, Friday afternoon.

Miss Pollard arranged a pleasant surprise party for her parents last Friday on the eve of their departure for the East.

Mrs. Jackson one of the school teachers returned to her home in Pasadena Sunday to recover from a case of tonsillitis. She expects to resume her place in the Kindergarten soon.

Tustin friends extended to Mr. and Mrs. C. E. Utt a cordial welcome home.

Mrs. McDougall is suffering from the effects of a cold. Many are suffering from a similar trouble in this vicinity.

Mrs. Slusser, Miss Johnson and Miss Enderle entertained the teachers Friday including the wives and husbands of the married ones in an evening of delightful fun, consisting of games, music and refreshments at the home of Miss Enderle on Yorba street.

Mrs. Johnson of Los Angeles is a guest of Mrs. Ella Brown.

Prof. Beswick and wife attended the farewell services for their former pastor, Rev. O'Rear of the M. E. Church, South. The Monday evening farewell meeting was given by the members and congregation of the church.

A very fine prayer meeting was held at the home of N. S. Long on A street, a few evenings ago. All there were interested.

Dr. Boal is visiting friends in Tustin, having been in San Diego for some time. He is now going to Pasadena where his daughter is teaching school. The many friends of the doctor are pleased to see him on the streets again.

W. J. Saunby is picking his last crop of oranges this week.

Lawrence Gordon of C and 2nd streets, entertained Delmer French for the evening, a short time ago.

Mrs. Preston who has been in poor health for some time, has fully recovered.

W. J. Saunby and wife went to Los Angeles to visit a daughter who is sick.

Blanche Horton, on her tenth birthday, gave a party to fifteen of her little friends.

The afternoon passed all too soon, with games, and a lunch consisting of sandwiches, cake, ice cream and candy. The hostess was the recipient of many beautiful gifts and the expressed wish of the guests was that she might have many more happy returns of the day.

## REV. J. A. GEISSINGER IS PRINCIPAL SPEAKER

ANAHEIM, Nov. 3.—The Rev. James A. Geissinger, new pastor of the Methodist Episcopal church here, will be the principal speaker at the regular meeting of the members of the Anaheim Chamber of Commerce Nov. 8, it was announced today by Secretary Fraser. Members of the county harbor commission were to have been present to explain progress and plans of the development of Newport harbor, but they have sent word that they cannot come then.

Rev. Geissinger is widely known as a speaker. In addition to carrying the pulpit in a number of metropolitan churches he has lectured in different capacities. During the war he spoke in many places for war work and Liberty bond campaigns. One of his first official acts on arriving in Anaheim was to join the Chamber of Commerce. Other members of the organization will have an opportunity to get acquainted with him at the next monthly meeting.

Attend McCormack's night school.

Brown, of the local library, are attending a meeting and luncheon of Orange county librarians at Fullerton today. An Orange county library club will be formed. Miss Proctor entertained librarians of Orange county and neighboring counties during the fair in October.

Mrs. Watson, corner of Eighth street and Walnut avenue, spent Sunday in Long Beach, as the guest of her son and family.

## MAGNOLIA PARTY IS ENJOYABLE AFFAIR

ANAHEIM, Nov. 3.—Magnolia is certainly on the map. You would tell the world just that had you been there Saturday evening. The whole district was there and some from outside who were more than welcome.

The three teachers, Mrs. Evans, Miss Tyler and Miss Carlson, had arranged a Halloween party for the children and invited the parents as well. The teachers and pupils had the schoolhouse decorated inside and out beyond description.

The patrons also dedicated a playground device called an "ocean wave," which operates something like a merry-go-round.

This was meant for the little folks but it seemed to be the center of attraction for all ages.

The enterprising young teachers had prepared a barrel of lemonade and about the same of orange juice and there were apples galore. The girl pupils all brought home-made cakes which would have done credit to a king's table.

The boy pupils were there, too, and they brought some mighty good appetites considering the way they had just finished the refreshments. Most everyone participated in the various games throughout the evening and all seemed to enjoy themselves immensely. It was rather late when the assembly broke up and everybody started home feeling thankful they had been out to the Magnolia party.

## NEW DISTRICT SELLING RAPIDLY IS REPORTED

ANAHEIM, Nov. 3.—The C. R. Berger Co., of Anaheim, sales agents for Cerro Villa Heights, the Valencia orange grove sub-division recently developed just north of Villa Park by the Jotham Bixby Co., of Long Beach, reports sales of groves in two tracts as follows:

John Kogro, of Orange; A. Yturry of Placentia, Nelson McCarthy of Santa Ana, S. Thompson of Villa Park, Dr. Thos. Warden of Sierra Madre, two groves to ex-mayor Windham of Long Beach and two groves to Dr. Maurice Seymour who is administrator of public health for the province of Saskatchewan, Canada.

Many beautiful homes will dot this slightly tract within the near future. Mr. Thompson having just finished a modern home. A Yturry is now building and Dr. Seymour is for the laying out of grounds for a residence, which will probably be under way in the spring.

## POTATOES BRING RICH RETURNS TO RANCHER

REDDING, Nov. 3.—Potatoes are found to be a profitable crop in Butte valley, on the other side of the mountains. Salve Bue, who owns a farm adjacent to the town of Burney, has six acres in potatoes this season. He has sold \$3000 worth of potatoes to Pacific Gas and Electric construction camps further east in the county. Bue estimates his profits on the six acres at \$2000.

Taxi service, day or night. Crown Stage Co. Phone 925.

## QUICK ACTION AVERTS CRASH FOR HUGHES CAR

ORANGE, Nov. 3.—Mr. and Mrs. Thomas Hughes of Tenth avenue had a slight accident to their new Studebaker Sunday while coming home from Seal Beach where they had been visiting Mr. Hughes' brother, Harry Hughes. An unknown man cut a corner and hit a rear wheel and fender, bending it badly. The accident would surely have been much worse if Mr. Hughes had not seen the man in time to speed up.

## LESTER LAYNE BUYS CLEM'S CASH MARKET

ORANGE, Nov. 3.—A transaction whereby Lester Layne takes over the interests of C. E. Clem in Clem's Cash Market, took place last week. The change became effective Monday.

Mr. Layne has been in charge of the meat department of the Acme store here for the past six months. During this period he was greeted with marked success and built up a remarkable business for the local Acme store.

Extensive improvements are planned by Mr. Layne in the new shop. The improvements will be latched immediately. The market will be finished in white enamel and will be the last word in sanitation.

A complete rearrangement of display windows, show cases and other equipment will also take place, it is announced. Several new show cases are expected to arrive this week and will be put in position immediately.

Plans for a contest by which the public will submit a suitable name for the new shop are under way. The contest will be staged immediately after the remodeling of the shop is completed. The winner will be awarded a choice ham, bacon or some other prize to be announced later.

## RAINFALL IN OCTOBER OVER NORMAL MARK

SAN FRANCISCO, Nov. 3.—October's rainfall was 54 inch above normal for the month, which gives California a good start toward a long needed wet winter, declares E. A. Beals, meteorologist of the weather bureau. The monthly summary shows that the accumulated deficiency of rainfall since January 1 was 7.58 inch, due to last season's drought.

Last month there were eighteen clear days, eight partly cloudy, five cloudy, seven on which it sprinkled and three on which it really rained. There were 280.1 hours of sunshine out of a possible 347.3 hours during October. The highest temperature during the month was 78 degrees, October 23, the day of the greatest range, which was 25 degrees. The lowest temperature was 49 degrees October 26.

Knauf and Faul, pioneer barbers, have opened handsome tonorial parlors in Room 235, W. H. Spurgeon building, elevator and stairway entrance, and are now ready for business. Three barbers and manicure service.

## GYPSIES STARE AS 'AMATEUR' PASSES BY

FULLERTON, Nov. 3.—Friday afternoon three loads of Gypsies passed through Fullerton on their way from somewhere to somewhere else.

As they came along north Spadra avenue the leader looked at a woman passing along on the sidewalk and his eyes grew big.

He pulled up his team, said something to the other occupants and called excitedly to the pedestrian.

She paid no attention to him and hurried on her way, leaving the Gypsies wide-eyed and chattering among themselves.

They thought they had suddenly found a member of Gypsy royalty for the woman on the sidewalk was dressed Gypsy fashion but in clothing much richer in quality than any one of the motley caravan had ever dreamed of wearing.

Who was the mysterious "Gypsy queen?"

Dear reader, you shall be kept in suspense no longer.

It was Mrs. N. Frank Morse, not a Gypsy queen, but an old well known. She was on her way to the meeting of the economic section of the Elbell club which met Friday with Mrs. Cowles.

Mrs. Morse has added to the merriment of many social gatherings by her cleverness as a fortune teller and she was dressed for the part when, by a strange coincidence, the real Gypsies passed her.

## CALIFORNIA LEADS NATION WITH GOATS

California leads the nation in the number of milk goats, agriculture authorities at the University of California today declared.

Milk from goats is not only easy to digest as shown by its use for infants and invalids, but it is stated that goats are practically free from tuberculosis, while nearly ten per cent of cattle have this disease.

Switzerland, with an area of only 16,000 miles, supports about 400,000 goats, it was said. California has plenty of room greatly to increase the present number.

At the University Farm, Davis, it was pointed out, one of the goats produced 294.5 pounds of milk in one year, equal to about 10 pints a day for 9 months.

To aid in the upbuilding of the milk goat industry, the College of Agriculture of the State University is now offering a correspondence course on milk goat raising. Circular number 113 available on application may be had by writing to the Division of Agriculture Education of the University of California.

## PHYSICIAN IS DEAD.

BERKELEY, Nov. 3.—Dr. Edward Gray, physician and author, whose home is at 2731 Regent street, died this morning as he was about to board a ferry train for San Francisco. His death followed a sudden attack of heart disease.

Dr. Gray was for twelve years the resident physician at the Sonoma State Home.

## WHY FARMER SHOULD USE SILO IS TOLD

As the principal business of farming is to make money, the silo, especially on the stock farm, will best accomplish this end.

Corn silage is the farmer's cheapest source of digestible carbohydrates. As this is the principal food element required by our domestic animals it certainly is wise to provide it.

Summing up all the experiments conducted by some twenty-three different state experiment stations over a period of fifteen years, silage has proven the most economical food for the production of stock and stock products.

There are about one-half million silos now in use in the United States and it is difficult to find a user who is not more than pleased with the results from his silo. Silo salesmen use as a slogan "Ask the man who has a silo."

The greatest expense connected with the live stock business is the cost of feeding the animals. The silo will lower this cost and therefore it should be one of the first considerations of the stock keeper.

The silo stands ever ready as an insurance agent against many of the common crop failures, especially such failures as damages from early frost, drought and hail. Wet seasons often prevent the raising of a crop of clover or alfalfa; this can be saved in the silo. Whatever is grown in the way of forage can be siloed and preserved for future use.

The silo is labor saving equipment and it saves in storage space. Eight times more feed can be stored in the silo than in the mow. Cattle can be fed quickly and easily from the silo as it is in convenient form and is always in condition for feeding. Many feeding arrangements require the hitching up of a team to a wagon or cart and the hauling of feed from one place to another. A silo properly placed will do away with this.

Silage is a succulent, grasslike feed, easily digested, and seems to stimulate digestion. It has much the same effect as grass, giving thrift to the animal; and less sickness is experienced among the stock when good silage is fed. Silage stimulates the milk flow and it prevents many troubles resulting from the over feeding of concentrates.

Experiments and experience have taught that the most profitable feeding is liberal feeding, such as will supply the animal with its requirements. Quick growth is profitable, large production is profitable, and the feeder of silage is more inclined to feed well, which means profitable feeding. The man with the silo is supplied with a large amount of good feed and in an emergency it can be carried over for several years with good profit.

Competition is keen in all lines of industry and the stock keeper with a silo has an advantage over his neighbor without one. In order to compete with the silo keeper, all stock keepers must use silos. World competition in growing stock and producing stock products will require the American farmer to use the best and most economical means. With the silo we need fear no competition from any country in the world.

## FIND CROW IS FRIEND AND FOE TO FARMER

That the crow's character is not so black as it is usually painted is disclosed by investigations made by the Bureau of Biological Survey of the United States Department of Agriculture. In fact, the department's "birdmen" say that much of the work the crow does is of direct assistance to the farmer, for "Mister Crow" wages warfare all summer long on insect pests. In fact, insects supply about one-fifth of its food, and those which he prefers in his diet are the worst insect pests the farmer has to contend with—grasshoppers, caterpillars and white grubs and their parents, the May beetles.

On the other hand, the crow raids the cornfield and the poultry yard and kills small birds and destroys their nests. From the evidence at hand the crow's merits and shortcomings appear about equally divided. While it would not be well to give it absolute protection and thus afford the farmer no recourse when the bird is doing damage, the Bureau of Biological Survey believes that to adopt the policy of killing every crow that comes within gunshot would be equally unwise.

Beginners' class meets Monday and Thursday at 7 p. m. at home of Mrs. Olive Lopez, 519 West Fifth. Terms \$4 for eight lessons, in advance.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

Night school at O. C. Bus. College.

## GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble, Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that "full, bloated feeling" after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments, creating the distressing gas which distends the stomach and hampers the normal functions of the vital organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water rich, after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Adv.

## OREGON LEADING WAY IN PLAN OF RESEARCH

WASHINGTON, Nov. 3.—For the first time in American history the citizens of a state, directed by a representative of the United States Public Health service, are by voluntary service, with almost no money, carrying out a successful state-wide investigation into the numbers and condition of the misfits and down-and-outers of the community. The state is Oregon and the classes investigated are the dependent, delinquent and mentally deficient. The work is not yet complete, but, according to Surgeon-General Cummings of the public health service, enough has been done to show that the results will vie with that of similar work done in other states by a trained official force. Dr. Cummings, in fact, thinks that it is amazing that the public could be brought to take such interest in such abstruse work and considers that Oregon's example might well be followed by other states where similar work is hanging fire because of lack of money.

About a year ago the legislature of Oregon, at the instance of A. R. Gephart, secretary of the public welfare board, authorized the University of Oregon to investigate these classes, which as in every other state, were known to be a source of weakness from their inability either to work or fight. The hope was that a good part of them might be reclaimed and the state freed from a constant drain on its finances, health, and morality and from a source of social and political unrest.

The legislature, however, appropriated no money for the work; and the university found that its funds would not be sufficient. So in February last it asked aid of the surgeon general, who sent Dr. C. L. Carlisle to Oregon as special assistant in the work.

"The task," said the surgeon general, "was not an easy one. As in most states only small percentages of these classes were being cared for in institutions and the rest were scattered and went almost unnoticed, for most of them were quiet and did not call attention to themselves as do the actually insane and criminal classes. Finding them was therefore the first requisite."

"As there was little money to pay trained workers, Dr. Carlisle quickly discovered that the only hope for success lay in enlisting the help of the people. He began by sending about 6000 form letters (followed later by thousands more) to college professors, university students who were about to go on vacations, editors, lawyers, doctors, ministers, priests, and other prominent citizens, explaining the need for the work and asking if they would help by sending in information in regard to any delinquents, dependents and mentally defective who might live in their locality."

### Cards Are Sent Out

"Hundreds of those addressed at once agreed; and each of these Dr. Carlisle at once commissioned under the seals of the state and of the university and supplied with cards to be filled in with the data desired. Interest in the work rapidly spread, and in four months about 20,000 filled-in cards had come back, each of them representing one of the three classes."

"These cards give information as to the emotional field of the individual (the manner in which he showed his trouble), his present history, school history, social relations (whether dependent, delinquent, or feeble-minded), the cause of his condition, and whatever remarks the writer thought it best to add. From this information Dr. Carlisle and his trained assistants were able to classify the subjects."

"The object of the work is, of course, twofold—first, to give the people of the state an idea of the problem that confronts them and the heavy annual loss that it involves; and, second, to serve as a basis for conservative recommendations which may enable the legislature to wipe out much of this loss and at the same time to save the classes involved from much of their present misery by applying well-proved remedies. These ends will certainly be attained."

Dr. Clark, child hygiene expert in the United States Public Health service, was asked about the need for preventive work, such as child hygiene, which would diminish the three classes by saving children who, if left alone, would almost certainly gravitate to the ranks of the submerged.

### Important Feature

"This," he answered, "is one of the most important features of the work. Such children are readily found in many states by the routine mental and physical school examination, but in other states must be found by obtaining from the schools the names of those who are over age for their grades. This latter necessity called for additional work in Oregon for in it as in most other states no lists or even figures bearing on this subject have been compiled; and the task is not yet near completed. It has progressed far enough, to show that a large per cent of those two years behind in their school work and a very large per cent of those three years behind (allowing an extra year's leeway) are more or less mentally deficient."

"By no means all children who are behind in school work are, however, mentally deficient. In Oregon, for instance, the causes for the backwardness of the children so far considered fall into seven classes, parental indifference, economic trouble (lack of clothing, apparent necessity for the child's labor, etc.) environment (sickness, foreign language, distance to a school, etc.); physical health, mental disability, temperament (lazy, timid, inattentive, etc.); and Indian blood. The per cent falling into each class cannot as yet be stated, though it will, of course, be ultimately worked out. This part of the investigation will undoubtedly lead to the adoption of measures that will save many of these children for lives of usefulness."

Home-made candies at home-made prices. Nougats, fudges, creams. Lion Candy Kitchen, 211 West 4th.

Night School at McCormack's.

## HOW TO TREAT SEED WHEAT IS EXPLAINED

All seed wheat should be treated for the prevention of smut before being planted. For this purpose the bluestone-lime treatment is recommended, as follows:

1.—Dissolve one pound of bluestone (copper sulphate) in four gallons of water, which must be held in a wooden trough or tub.

2.—Dip the seed contained in half sacks or butts for three to five minutes in the bluestone solution. Shake out the air as the sacks soak.

3.—Drain the sacks for fifteen minutes and then dip in a lime solution prepared by soaking one pound of quicklime in eight gallons of water. If the lime solution becomes blue, replenish with a new solution.

4.—Dry thoroughly before storing. When barley is treated in this solution or when the lime dip is not used after the bluestone treatment, use one pound of bluestone to five gallons of water. Wash seed in water before dipping in bluestone when the lime dip is omitted.

If the seed which contains smut balls they should be washed out before dipping the seed in the bluestone. If the wheat is poured slowly into receptacle containing water and stored the smut balls may be skimmed off as they rise to the surface together with the chaff, etc.

Enclosed cars, day or night, city or country trips. Crown Stage Co. Phone 925.

## END OF EIGHT YEARS MISERY

Used Lydia E. Pinkham's Vegetable Compound and Recovered.

Newark, N. J.—"The doctor said I had an organic trouble and treated me for several weeks. At times I could not walk at all and I suffered with my back and limbs so I often had to stay in bed. I suffered off and on for eight years. Finally I heard that Lydia E. Pinkham's Vegetable Compound was a good medicine and tried it with splendid effect. I can now do my housework and my washing. I have recommended your Vegetable Compound and your Blood Medicine and three of my friends are taking them to advantage. You can use my name for a testimonial."—MRS. THERESA COVETNEY, 75 Burnett St., Newark, N. J.

You are invited to write for free advice. No other medicine has been so successful in relieving women's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass. Such letters are received and answered by women only and held in strict confidence.

## OLDEST COLONY IN AMERICA THEIR CLAIM

Nova Scotia may lay claim to being the earliest colonized land in North America, with the exception of St. Augustine, Fla., where the Spanish establishment was made as early as 1565. Port Royal, now the little town of Annapolis, was founded in 1604, three years before the English settled at Jamestown. The brave French pioneers found it necessary to suspend their colony for three years, but the settlement was re-established in 1610 by a group of Acadians.

The Acadians were in almost constant conflict with the English. The colony fell into the hands of the English twice, and was each time returned to the French before the English finally captured it in 1710. The Acadians remained steadfast in their hopes that French rule would some day return, but their hope was destined never to be realized. They, however, persisted in maintaining their identity even against the English insistence that they abandon their allegiance to their mother country.

The descendants of the Acadians, numbering 300,000, are to be found in Maryland, Virginia, the Carolinas, Georgia and Louisiana. When the Acadians were expelled from the Basin of Monas, Grand Pre, when they refused to take the oath of fealty to the English sovereign in 1755, many of them escaped to the wilderness and later drifted back to their former homes, only to find them occupied by new settlers from New England states.—Wheatland Four Corners.

Folks—can you really afford to own a car when you can rent one without driver for as little as \$3 a day? 7 1/2 cents a mile. See Copson, 411 W. 4th. Phone 1426.

"WHITE STAR Laundry Tablets make washing easy."

Taxi service, day or night. Crown Stage Co. Phone 925.

# MAXWELL

The man who starts out to get the utmost for his money in a five-passenger motor car will be driven to the good Maxwell by sheer force of logic and facts.

By any and every standard you choose to apply—first price, running-cost, power, responsiveness, wheel base, roominess—the good Maxwell at \$995 will prove itself by contrast and comparison the greatest buy in the market today.

TRADE MARK

There are many Tractors clamoring for the patronage of the farmer. The very air is charged with the noise of claims. One would think that all the farmer had to do was to buy a Tractor and he would enter into the Millennium.

Well, consider this fact—there are a great many different makes of Tractors. Tractors have been on the American market for twenty years. In that time some three hundred thousand Tractors have been sold to the farmers in the United States. The Fordson Tractor has only been on the market two years, and in that time more than one hundred thousand Fordson Tractors have been sold to the farmers of the United States.

Two and two make four. Two and two always will make four. If the Fordson Tractor had not delivered more good work, more satisfactory work, more economical work, than any other farm Tractor, it would not have sold in the ratio of anywhere from five and more to one. "The proof of the pudding is in the eating." The proof of the superior merits of the Fordson Tractor is in its larger sale and use.

The Fordson Tractor then asks you to buy it because of what it has done for your neighbors. It asks you to buy it on its merits. It asks you to buy it, Mr. Farmer, because you have use for it every day in the year. All the uses for the Fordson Tractor have not yet been uncovered because new places where machine power can take the place of human power, where machine power can supplant horse and mule-power, are being found every week, and wherever such discovery occurs, the Fordson Tractor will fill the bill more satisfactorily than any other form of power.

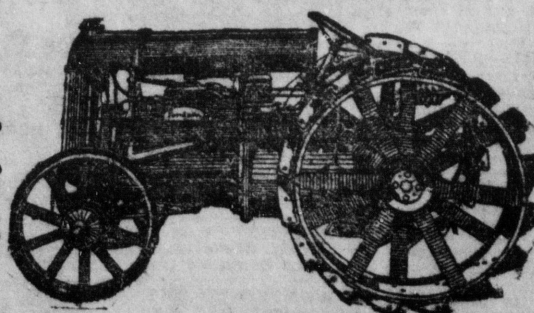

The Fordson is simple in design, and it is very strongly made of the highest quality of iron and steel. It is the product of the greatest mechanical genius the world has ever known, and it is most economical in first cost and after expense. The Fordson Tractor on your farm will increase the value of every foot of ground on that farm. It will put more dollars and cents into every hour you put into the farm.

Now why not have a Fordson right away? Take up the subject with us. Come in and get the details, and all the particulars. It is only a matter of time until you buy a farm Tractor—that is sure. So don't put it off when it means money to you to act promptly.
